Welcome to the 2018-2019 Associate Degree Nursing (ADN) Student Handbook. The ADN Student Handbook is developed for students admitted into the ADN Program to provide them with information about the ADN Program guidelines and procedures.

The ADN Student Handbook outlines essential information from South Texas College, the NAH Division, and the ADN Program; which includes policies and procedures, expectations of students, student code of conduct, and professional conduct.

The ADN Program students are responsible for knowing the information and complying with the policies, procedures, and guidelines outlined in the ADN Student Handbook.

The NAH Division reserves the right to change policies and procedures without notice. The ADN Student handbook is not intended to be, and should not be regarded as a contract between the College, the NAH Division, and/or any student or other person.

Also, please note that the electronic version of the ADN Student Handbook will be the one that is updated. The electronic version should be consulted as the primary resource.

South Texas College
Nursing & Allied Health
1101 E. Vermont Avenue
McAllen, Texas 78503

Statement of Equal Employment Opportunity (EEO)
South Texas College is an equal education and equal employment opportunity/affirmative action employer. As an equal opportunity employer, the College does not discriminate on the basis of race, color, national origin, religion, age, sex, sexual orientation, gender, gender identity, disability, genetic information, or veteran status. Discrimination is prohibited and the College will comply with all applicable College policies, and state and federal legislation. This policy extends to individuals seeking employment with and admission to the College.

Associate Degree Nursing Approval
South Texas College Associate Degree Nursing Program is approved with commendation by the Texas Board of Nursing. Contact the Texas Board of Nursing at 333 Guadalupe, Suite 3-460, William P. Hobby Building, Austin, TX 78701-3944, 512-305-7400, email address: webmaster@bon.texas.gov.

South Texas College Accreditation
South Texas College is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award the Baccalaureate and Associate degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call 404-679-4500.

Associate Degree Nursing Candidacy for Accreditation
This nursing education program is a candidate for accreditation by the Accreditation Commission for Education in Nursing. Contact Accreditation Commission for Education in Nursing (ACEN), 3343 Peachtree Road NE, Suite 850, Atlanta, GA 30326, 404-975-500, www.acenursing.org.

I have read, understood, and will abide by the policies, procedures, rules, and regulations as outlined in the Associate Degree Nursing (ADN) Student Handbook during my tenure as a nursing student at South Texas College. My initials and signature indicate my understanding and acceptance of my responsibilities as an ADN student. I further understand that new STC policies, guidelines, and procedures may be implemented that must be adhered to during my tenure as an ADN nursing student. It is my responsibility to stay informed of new STC policies, guidelines, and procedures through the ADN website, course syllabus, announcements in class, and through the student representative of my cohort.

VISION, MISSION, AND PHILOSOPHY

VISION
South Texas College is a world-class institution advancing regional prosperity through education for a better quality of life in our community.

MISSION
The mission of the Associate Degree Nursing Program is to prepare individuals to become professional nurses who will be providers of patient-centered care, patient safety advocates, and members of the health care team and profession, meeting the needs of our growing and diverse community.

PHILOSOPHY
The South Texas College Department of Associate Degree Nursing Program believes nursing is both an art and an applied science. The ADN Program observes the following philosophy standards:

Nursing: Nursing is unique, dynamic profession committed to the holistic care of the client. The Associate Degree Nurse is an essential member of the nursing profession who practices within the guidelines of the Differentiated Error! Reference source not found., Texas Nursing Practice Act, American Nurses Association’s Standards of Care, American Nurses’ Association Code of Ethics and participates in professional nursing activities. We believe that caring, compassion, commitment, communication, and critical thinking lead to competence. The science of nursing is based on a critical thinking framework known as the nursing process, composed of assessment, diagnosis, planning (outcome identification and nursing interventions), implementation, and evaluation. These steps serve as the foundation of clinical decision-making and are used to provide evidence-based practice.

Person: Person is a unique holistic being of inherent worth and dignity, composed of physical, psychological, emotional, and social dimensions. While persons share commonalities, each individual is diverse in age, gender, race, ethnicity, culture, religion and lifestyle, with values and beliefs that give meaning to life and health. Person is an individual and also a member of family, groups, and communities. The patient can be the individual, or the family, group or community of persons.

Health: Health is dynamic, multi-faceted continuum in the journey to optimal well-being. It encompasses the total effective functioning of the person physically, socially, psychologically, and spiritually. Physical functioning refers to the ability of the body structure to change and adapt. Social functioning is the individual’s ability to interact in a meaningful fashion and to form meaningful relationships with others, recognizing that people are unique and come from diverse backgrounds. Psychological health is an individual’s ability to problem solve, manage stress and crisis, and respond to situations in an appropriate emotional manner. Spiritual domain is the belief in high power; it includes ethical standards, moral character, and values. The nurse assists to attain, maintain and/or restore optimal level of wellness permitted by their potential across the lifespan.

Environment: The faculty believes that environment has a profound effect on the person. Environment consists of internal and external elements that are in constant interaction with the person. The internal environment is made up of all forces or influences entirely within the person. The external environment is made up of all forces or influences that exist outside of the person. Both internal and external environments work together to influence the person. Nurses, in their various roles, collaborate with the person to enhance or modify the environment to promote, maintain or restore health.
Learning: Learning occurs when new knowledge and self-awareness produce change. It is an individualized process, which is never ending, continuous, and dynamic. Each learner has a style including one or more learning domains: affective, cognitive, and psychomotor. Ultimate learning occurs when the learner is involved, self-motivated and takes responsibility for learning. The learner needs to be engaged and committed to succeed. Learning is enhanced by internal and external factors such as the physical environment, available tools, an atmosphere, which encourages discovery and learning, motivation, readiness, capability, and support. This list is not all-inclusive. As the world changes, so do learning needs, strategies, and tools to meet the students’ learning needs.

Teaching: The teacher is the facilitator, resource person, model, and guide for student learning. The learning facilitator is supportive, caring, consistent, and fair. To enhance the learner’s growth, the facilitator needs to love learning as evidenced by enthusiasm, continued professional growth, and respect of the learner. The facilitator needs to be creative, an expert in content area, and a critical thinker to effectively utilize all tools and teaching strategies currently available to enhance the learning environment.

Nursing Education and the Teaching-Learning Process: The Faculty designs learning experiences by implementing a variety of teaching strategies in the classroom and clinical laboratory. Students and faculty value learning. Concepts are taught from simple to complex. Each semester, the Program utilizes assessment, analysis, planning, implementation, and evaluation to improve the South Texas College Associate Degree Nursing Program (STC-ADN PROGRAM). The STC-ADN PROGRAM believes in accountability between teacher and learner. Each person (student, faculty and staff) is respected for what they have to offer and their personal uniqueness. Faculty strives to provide an atmosphere of caring, trust, and stimulation. The South Texas College Associate Degree Nursing Program’s goals are to promote professionalism, patient advocacy, social responsibility, leadership with integrity, desire for continued learning, and to provide the community with safe, caring, and efficient nurses.
## PROGRAM LEARNING OUTCOMES

At the completion of the ADN Program, the Associate Degree Nursing graduate will be able to:

<table>

<th>STATEMENT OF PROGRAM LEARNING OUTCOME</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>PLO 1</strong></td>
<td>Perform holistic health assessment of assigned patients independently.</td>
</tr>
<tr>
<td><strong>PLO 2</strong></td>
<td>Develop and implement a patient-centered plan of care based on the nursing process, in collaboration with patients, their families, and the interdisciplinary health care team.</td>
</tr>
<tr>
<td><strong>PLO 3</strong></td>
<td>Utilize clinical reasoning towards clinical judgement in providing safe and competent nursing care to assigned patients and their families in collaboration with the interdisciplinary health care team.</td>
</tr>
<tr>
<td><strong>PLO 4</strong></td>
<td>Develop and implement teaching plans for patients, their families, and/or the community to provide relevant health information.</td>
</tr>
<tr>
<td><strong>PLO 5</strong></td>
<td>Use technology in the management of information to support decision-making and prevention of errors, in collaboration with patients, their families, and the interdisciplinary health care team.</td>
</tr>
<tr>
<td><strong>PLO 6</strong></td>
<td>Provide evidence-based nursing care within the legal and ethical framework of the nursing profession to patients and their families, in collaboration with the interdisciplinary health care team.</td>
</tr>
</tbody>
</table>
Alignment of Course Learning Outcomes and Program Learning Outcomes

The faculty and staff of the ADN Program believe that nursing students develop attitudes and skills as they accumulate knowledge while in the Program. The general statements from the Program learner outcomes are applied to each particular level of students in the ADN PROGRAM, which will show their progress from being a level one student to a level four student, getting ready to graduate and join the nursing workforce.

Students will demonstrate competence by applying nursing knowledge, clinical judgments, and behaviors in partnership with patients and families in health promotion, health maintenance, and health restoration. Various health care settings available in our community will allow students to provide care for patients and families with predictable and unpredictable health care needs across the lifespan.

ADN PROGRAM INFORMATION AND REQUIREMENTS

Admission Criteria

Admission to South Texas College
Students are admitted to South Texas College through the provisions of Board Policy 3200. General admission to the College does not imply admission to all Programs of the College. The admission requirements for the College are found in the current College Catalog and at the College website www.southtexascollege.edu.

Admission to the Associate Degree Nursing Program
The Associate Degree Nursing Program (ADN Program) is a selective Program with Program application requirements. Prospective students must meet all Program application requirements before being eligible to apply to the Program. In addition, the ADN Program selection process is Competitive Entry and is based on a competitive Point System.

Procedure for Pre-Accepted Students
Students pre-accepted into the ADN Program including the “alternate students” will be granted three (3) attempts on Dosage and Calculation Math Exam to achieve a 100% proficiency in one (1) of the three exam attempts. Once the student achieves a 100% proficiency on the first attempt, he/she is not required to take the remaining exams. Refer to Student Step-by-Step guide for further information https://nah.southtexascollege.edu/adn/index.html.

Mandatory Orientation and Boot Camps of the Associate Degree Nursing Program
The Associate Degree Nursing Program (ADN Program) sets in place mandatory orientation for students to attain all necessary information such as, but not limited to, program expectations, schedules, clinical clearance, financial aid information, uniforms, purchase of electronic software and books, etc. It is imperative the student attend the mandatory orientation. Any student not able to attend will sign a Waiver and complete an alternative assignment due the first day of class.

Boot Camps are set by the program for students’ success. Students are mandated to attend to introduce the Program expectations, skills, schedules, test taking strategies, time management, and clarify any questions the students may have before the first day of class.

For more information on the admission requirements for the ADN Program, visit the Associate Degree Nursing webpage: https://nah.southtexascollege.edu/adn/index.html.

Transfer Students
Students transferring from accredited nursing programs must meet the following:

1. Meet general admission requirements of South Texas College and the Associate Degree Nursing Program
   a. TSI- complete
   b. Only 45 credits may be transferred for the AAS in Nursing degree; 50% of nursing courses must be taken at STC
   c. HESI A2 scores need to be 75% or Higher in Math, English and Science (Anatomy & Physiology) composites and is valid for 2 years.

2. Have a minimum GPA of 2.5
3. Present syllabi of nursing courses already completed
4. Present a transcript from all colleges attended and have it evaluated by the Admissions and Records Office for transfer credit
5. Must complete the nursing Program within one (1) year of enrollment in Program’s first nursing course
6. Must meet criminal background check, drug screen, CPR, medical insurance, liability insurance, immunizations, and PPD requirements of all nursing students
7. Students should know the following facts when transferring into the ADN Program
   a. Credit will not be given for nursing course work more than two (2) years old
   b. Placement in nursing courses will depend upon space availability and recommendations of the Admissions and Progressions Committee
   c. Transfer student nurses who have failed a nursing course in another college or university nursing Program are eligible to seek entry into the STC ADN Program if their failing grade was 75% or higher and admission criteria are met. These student nurses (SNs) are admitted with the understanding that readmission following any STC nursing course failure will be denied
STC ACADEMIC GUIDELINES AND PROCEDURES

College and Student Services
South Texas College provides students with a variety of college/student services to assist in student success such as:

Centers for Learning Excellence
The Centers for Learning Excellence (CLE) provide individual and group tutoring, computer labs, content-specific and learning skills workshops, and other course-based learning assistance programs. For more information, visit the NAH CLE.

Library Services
Library Services seeks to provide a safe and comfortable environment for all patrons. We expect patrons to behave in a civil, considerate, and courteous manner, to respect the rights of other patrons and staff members, and to use the library for its intended purposes. For more information, visit the NAH Library Services.

Academic Advising/Counseling
All academic advising/counseling for all NAH students, will be done at the NAH campus. In the event the counselor is not available at the NAH Campus, there are counseling services available in Mid-Valley, Pecan and Starr County Campuses.

Requesting Special Accommodations

Student Disability Services
South Texas College is committed to providing reasonable accommodations for all persons with disabilities. If you have a disability that may have some impact on your work in this class and for which you may require accommodations, please contact the Office of Student Disability Services to inquire about accommodations. Accommodation requests must be in writing. Students are required to provide documentation to verify his/her disability before accommodations are provided. Requests must be submitted at least two (2) weeks prior to the need for accommodation to be initiated. Students receive the most benefit when requests are made at the beginning of each semester. Please call 956-872-3077 or 956-872-2173.

Students that have received accommodation letters must meet with faculty privately during office hours to discuss the provisions of those accommodations as soon as possible.

Pregnant and Parenting Students
South Texas College does not discriminate against any student on the basis of pregnancy, parenting or related conditions. Pregnant or parenting students seeking accommodations should contact the Title IX Coordinator immediately.

Pregnancy-Related Absences
Schools must excuse absences for students who are pregnant or who give birth for as long as that student’s doctor determines is necessary. At the conclusion of that period, the student must be given a reasonable amount of time to make up the work she missed.

If you have questions about absences related to pregnancy and parenting under Title IX contact the Counseling Department at 956-872-3077 or (956) 872-2173.
Graduation Requirements
South Texas College awards the Bachelor of Applied Technology, Associate of Art and Associate of Science degrees, Associate of Applied Science and the Certificate of Completion.

A student who enrolls at South Texas College during any academic year and who earns credit for work done during that year may graduate under the degree requirements provision of the catalog in force during the student's first semester of enrollment, provided that the student graduates within seven years for the bachelor degree program, within five years for an associate degree program, and within three years for a certificate program. Otherwise, the student may graduate by fulfilling the degree requirements as published in the catalog in force at the time of the student's graduation.

Academic Integrity
Students attending South Texas College are responsible for adhering to standards of academic integrity. Academic integrity is the pursuit of scholarly activity in an open, honest and responsible manner. Academic integrity is a basic guiding principle for all academic activity at South Texas College and students are expected to act in accordance with this principle. Failing to adhere to academic integrity constitutes academic dishonesty. Academic dishonesty is considered to be a violation of the behavior expected of a student in an academic setting as well as a student conduct violation. A student found responsible for academic dishonesty is subject to appropriate academic penalty as determined by the faculty member and division. Students who engage in academic dishonesty also face additional sanctions from the Office of Student Conduct, including expulsion from the College, as outlined in the STC Student Code of Conduct Handbook. More information on the NAH procedures and policies regarding academic integrity, can be found on the Appendix section.

Class Attendance and Participation
Class attendance and participation are essential to student success. Regular and punctual class attendance is expected at South Texas College. Student absences will be recorded from the first day the class meets. It is imperative that students attend on the first day of class. This is when the course syllabus, schedule, deadlines, and class expectations will be discussed.

A student in an on campus course missing a cumulative of 10 percent (10%) of the class meetings may be dropped by the faculty member in accordance to the policy or policies outlined in the course syllabus. In addition to published guidelines related to attendance, faculty may drop a student prior to the withdrawal deadline when the faculty member determines that the student will be unable to successfully complete the course. For more information, visit the Nursing & Allied Health Division Student Handbook and the South Texas College Student Handbook & Student Code of Conduct.

Contact hours are based on the WECM Course Manual.

Course Syllabus
The Course Syllabus is the student’s guide for the course. Faculty will be responsible to inform location of the syllabus or give a copy of such on the first class day. The purpose of the syllabus is to effectively clarify the student understanding of the course content and requirements. The syllabus will include, but not limited to, name of instructor, contact information, and office location, policies, rules and regulations, required texts, learning goals and objectives, course calendar, student responsibilities, grading criteria, disclaimers, etc. A signed Syllabus Acknowledgement Form page 82 must be submitted to the course faculty by the second-class day.

Faculty and Student Communication
Jag email will be used by faculty/staff as form of communication prior to the beginning of the semester to inform students of course schedules, boot camps, meeting date, times and venues, or any other school related information.

Once the semester begins, faculty will use Blackboard system as form of communication with students. Students are to email instructor through Blackboard. The instructor will have 24-48 hours to respond to student’s Blackboard message.

Student Discipline
South Texas College supports the right of faculty to maintain discipline in the classroom. When a student is alleged to have committed an act of academic dishonesty, been disruptive in the classroom, clinical or other academic setting, the course instructor or clinical supervisor may move to sanction the student, which may include temporarily or permanently removing that student from class/clinical according to procedures outlined in the STC Student Code of Conduct. For more information, visit the STC Student Handbook and NAH Student Handbook.

Course Grade Appeals
Students at South Texas College have the right to appeal final course grades, which they consider manifestly unjust or erroneous. The primary responsibility for assigning grades in a course belongs to the faculty member, and in the absence of compelling evidence of discrimination, differential treatment, or procedural irregularities, the judgment of the faculty member responsible for the course must remain determinant. More information can be found on the South Texas College Student Handbook.
Complaints and Grievances
Complaints and grievances must follow the procedures outlined in South Texas College Policy 3313 – Student Grievance or Complaint. Nursing and Allied Health program progression issues must be addressed according to procedures detailed in the Nursing and Allied Health Division Handbook Disciplinary Action & Grievance Due Process.
ADN PROGRAM GUIDELINES AND PROCEDURES

Action Plan for Student Success

The ADN Program aspires to give all students tools and resources to help them achieve success in their courses, which will translate into Program completion. The faculty of the Associate Degree Nursing Program are sensitive to the needs of the students as they seek assistance to make career choices, and utilize their ability to move through the Program at an individual rate of progression. The faculty participates in continuous academic advising and counseling throughout the students’ participation in the ADN Program.

The faculty will meet with student to establish a Plan of Success for students who are identified as “at risk”. The student will be referred to the Academic Coach and/or Student Advisor to develop an individual action plan for success. Referrals may include, but are not limited to, grade of below 80% on unit exams, class absences, and behaviors in classroom or clinical not conducive to learning.

Alternative Learning Experiences: The ADN Program faculty may utilize a variety of alternate learning experiences to meet course outcomes and Program learning objectives. Activities may include, but are not limited to, community outreach projects and independent learning activities, which may be scheduled outside school or clinical hours. Students will be given ample time to prepare for said assignments and arrange for the hours. Credit will be given to students’ work in the didactic or clinical course where the alternate learning experiences are affiliated to. Refer to Community Teaching Project Grading Rubric page 83.

Case Study Presentation/Community Outreach Project: Case Study Presentation/Community Outreach Project is a group collaborative activity that should foster leadership and teamwork. It is designed to encourage and promote collaboration, coordination, member participation, and cooperation. The members of the group will get the same grade based on a rubric. After group deliberation, member/s found not participating and/or not cooperating during the preparation up to the presentation, the group may collegially decide by majority vote to exclude the name of the non-cooperating and/or non-participating member/s from the list that will be submitted to the faculty. The list must be submitted to the faculty after the presentation. He/she who was excluded from the list of members will get a grade of zero for the case study presentation/community outreach project. The grade will only be credited to the members of the group whose names appear on the list submitted to the faculty. See Case Study Grading Rubric page 81, Community Teaching Project Rubric page 83 and Community Project Peer-Evaluation page 84.

Online Discussion: This is a reflective student activity that enhances active participation in the class and thereby promotes active method of learning. Students are expected to achieve greater cognitive, critical thinking skills, and exploratory learning. Online discussions will require students to create a thread in response to the discussion questions and may give feedback and comments on the postings/discussions.

Poster Presentation: This is a small group active learning activity integrating research and theoretical contexts on nursing topics and concepts. Students are to summarize and present nursing concepts, research findings, and results creatively in a poster format or display that can be utilized both by the presenters and audience to augment learning and enhance critical thinking by being able to answer and respond to questions and by comprehensively discussing contents/concepts of the poster to the audience. Posters will be on display for a day wherein presenters will be available to present and respond to questions of the audience. The course faculty will design grading rubric.
**Online Comprehensive Simulated Adaptive Tests:** This online platform will engage and prepare students to develop comprehensive knowledge and skills utilizing simulated, comprehensive adaptive testing to assess and develop students’ knowledge and critical thinking in the delivery of care based on client need categories, evidence-based, point-of-care content used by practicing nurses. The simulated adaptive tests will cover nursing concepts applicable to the course. Test grade will be calculated based on the mastery level achieved by the student divided by the maximum mastery level identified by the course faculty and converted to percentage points. *(Mastery Level Achieved ÷ Mastery Level Set by Faculty x 100 = Adaptive Test Grade).*

**Blackboard:** All course and school-related information will be communicated through STC’s Blackboard system. It is the responsibility of the student to check their Blackboard on a regular basis, before, during, and after school to keep abreast with all current information.

**ADN Graduation Criteria**

Upon satisfactory completion of the curriculum as outlined for the ADN Program, students will be eligible to receive the Associate of Applied Science in Associate Degree Nursing.

To be awarded the Associate of Science degree, the student must satisfy the following requirements.

1. Complete the appropriate course of study for an Associate of Science program as specified in the College catalog. Developmental, or other non-credit coursework does not apply toward graduation requirements.
2. South Texas College will accept a maximum of 45 semester credits of applicable coursework transferred from another accredited college or university toward an Associate of Science degree granted by STC.
3. Maintain a minimum average of a “C” (2.0 GPA) for all courses in the area of specialization and a minimum overall cumulative average of “C” (2.0 GPA) in all other courses. *A letter grade of “C” is required in all nursing courses (RNSG) of the ADN Program.*
4. Pay all debts to the College prior to graduation and not have any HOLDS on the student account.

All NAH students will be expected to participate in the commencement exercises unless they are given permission to graduate in absentia. Students who will complete the requirements for graduation during the summer or fall, will graduate during the appropriate semester and participate in the December commencement exercises.

**Pinning Ceremony**

The ADN Program holds a Pinning Ceremony after the Fall and Spring semesters. The Pinning Ceremony is a tradition in the nursing profession as a rite of passage from being a student nurse to a professional nurse. A pinning fee is assessed through the students’ tuition on their last semester in the program. The Pinning Ceremony is usually held before graduation and before the last day of submission of grades. Students are highly encouraged to attend the Pinning Ceremony; however, participation **does not ensure** that the student has passed all nursing courses.
Texas Board of Nursing Affidavit of Graduation

After successful completion of all the academic requirements of the Associate of Applied Science Associate Degree Nursing, the student must submit the following requirements in order for the Program director to issue the Texas Board of Nursing Affidavit of Graduation.

1. Texas Board of Nursing Application NCLEX-RN Examination Fee receipt
2. Texas Board or Nursing Jurisprudence Examination Certificate
3. Copy of South Texas College Degree Works indicating 100% completion
4. Meet all graduation requirements by South Texas College
5. Completed Graduation Clearance for Affidavit of Graduation Form page 79

Students must complete the Application by NCLEX-RN Examination for Registered Nurses of the Texas Board of Nursing to write the NCLEX-RN Examination as stipulated by the TBON.

Employment While in the Program

The ADN Program has issued the following statements regarding student employment:

- The performance of students when working for compensation is the legal responsibility of the employing agency and students.
- Nursing students shall not assume any position which requires Licensed Registered Nurses’ skills, knowledge, and judgment.
- Employed students may not wear the school uniform (or name badge) during extra-curricular employment.
- Students may not at any time be employed in the capacity of “Nursing Student.” Students seeking employment in health care agencies are referred to Rule 218.11 regarding nursing students working and tasks that may or may not be delegated to unlicensed personnel in The Texas Board of Nursing, Nursing Practice Act.
- Students understand that the ADN PROGRAM is rigorous and employment while in nursing school may jeopardize their success in the Program.

Level Boot Camps

Boot Camps are essential for Student Success. Boot Camps are designed to inform the students of necessary level expectations and student success strategies. It is mandatory for the student to attend. If the student cannot attend the scheduled level boot camp, student will be given an alternative assignment and will be required to sign the Waiver for not attending. The alternative assignment will be emailed to the student to include, but not limited to, CLE services, Remediating Strategies, Test Taking Skills, Professional Behavior, Time Management, Critical Thinking in Nursing, Clinical/Preceptorship Expectations, etc. and due the first day of class.

Chain of Command

Chain of command is the line of authority and responsibility in an organization, which oversees the implementation of policies, guidelines, and procedures. Following the chain of command in the health care workforce means moving up the administrative ladder when the nurse believes that the patient’s needs are not being met. It is of utmost importance in the role of the nurse as a patient advocate. In most health care institutions, failure to adhere to the chain of command may result in progressive disciplinary action up to and including termination.

Students, faculty, and staff must adhere to the established chain of command in the ADN Program for any concerns, issues, and grievances to ensure prompt and satisfactory resolution. When the established chain of command is bypassed, the complainant will be re-directed back to the proper authority. Maliciously
bypassing the ADN Program chain of command may lead to student’s disciplinary action and up to dismissal from the Program.

**Grievance Policy and Procedure**

STC and NAH Programs strive to provide fair and objective procedures for hearing student complaints, and endorse compliance with the spirit of nondiscriminatory regulations. The following procedure must be observed:

1. In an effort to resolve misunderstandings, complaints or grievances, students must first make every attempt to resolve the issue with the individual against whom the complaint originated.
2. If the grievance is not settled, it should then be discussed with the next superior.

If unresolved, the student is to contact the Student Rights and Responsibility Office at 956-872-2180.

**Student Code of Conduct**

All ADN Program students are to comply with the ADN Program Student Code of Conduct. Any violations will result in disciplinary action. Disciplinary action may include, but not limited to, dismissal from the ADN Program, ineligibility in any NAH programs, and/or additional sanctions from the Office of Student Rights and Responsibilities.

**Professional Behavior**

Students in the ADN Program are expected to conduct themselves in a professional manner at all times, not only in interaction with clients, but also with peers, faculty, and staff. Students represent the Nursing & Allied Health Division and the nursing profession; thus students assume responsibilities toward the society. These responsibilities are delineated in the Code for Nurses, American Nurses' Association. The statements of the Code and their interpretation provide guidance for nurses' behavior in relation to carrying out nursing responsibilities within the framework of ethical decision making. Students are obligated to function at all times within the framework of the *Code for Nurses*. American Nurses' Association Code of Ethics are as follows:

1. The nurse practices with compassion and respect for the inherent dignity, worth, and unique attributes of every person.
2. The nurse's primary commitment is to the patient, whether an individual, family, group, or community.
3. The nurse promotes, advocates for, and strives to protect the health, safety, and rights of the patient.
4. The nurse has authority, accountability, and responsibility for nursing practice; makes decisions; and takes action consistent with the obligation to promote health and to provide optimal care.

**Unprofessional Behaviors**

**Unprofessional behaviors may include**, but not limited to:

Clinical and classroom demeanor
- Disrespectful
• Unacceptable uniform
• Disruptive Behavior
• Demeaning or Humiliating Conduct
• Inappropriate use of electronic devices
• Leaving classroom/clinical premises during the duration of clinical rotation/shift
• Inappropriate use of social media
• Lying
• Stealing
• Bullying/Cyberbullying
• Misuse of clinical/classroom equipment
• Intimidation, Threatening Behaviors and/or coercion
• Severe, Persistent, and Objectively Offensive Expressions
• Frivolous appeals or complaints
• Facilitating Any Type of Misconduct
• Disruption or Interference with an Investigation, Conference, Meeting or Appeal
• False and/or unfounded accusations

Professional Clinical Behavior
The course faculty has the right and responsibility to dismiss the students from the clinical area at any time that the student exhibits unsafe clinical performance. Unsafe clinical performance is defined as the inability to safely meet the needs of the patient. Examples of behaviors that demonstrate unsafe clinical performance are listed on the clinical evaluation tool for each course.

Unsafe behavior may consist of a behavior, or pattern of behaviors that include, but are not limited to:
  a. Failure to document and/or communicate vital client information and changes in client’s condition
  b. Medication error
  c. Practicing beyond the student nurse’s scope of practice
  d. Endangering the lives of the client/patient
  e. Violating HIPAA rules
      • Inappropriate use of electronic devices
  f. Failure to disclose student’s communicable disease status to course/clinical faculty.
  g. Failure of the student to complete and submit Course/Clinical Requirements and documents on due dates.

Professional Appearance
Students in the ADN Program are expected to follow the set requirements, which are enforced for the interest of safety and professionalism in and around the clinical and classroom setting.
  a. Standard scrub uniform top and pants in designated color (ceil blue)
  b. White lab coat will be worn over ceil blue scrubs for clinical prep and for clinical according to infection control standards.
  c. Standard white nursing shoes with closed toe and heels, or all white (non-canvas) tennis shoes with conservative logo (no colored stripes); must be completely leather
  d. Student should wear appropriate undergarments.
  e. Proper name badge(s) on left side of the uniform at all times (class and clinical).
  f. School patch on left sleeve of uniform and/or left side chest of lab coat.
  g. White socks and/or white hose must cover the ankle entirely; no no-show socks allowed.
  h. If a skirt will be worn, shirts length should be right below the knees
  i. The following are not to be worn in the classroom or in a clinical agency or any NAH college-related activity:
• Tight clothing
• Jeans (torn, faded, low hipsters, etc.)
• Shorts
• Midriff-baring shirts
• Low-cut shirts
• Skirts above the knee
• Open-toed shoes
• High heel shoes

j. Dress code exceptions are made in special care areas, such as; Labor and Delivery, Operating Room, Recovery Room, Behavioral Health and/or other designated areas. Other attire may be required and/or worn; students will be notified by clinical instructor when it is required.

— **Hair.** Hair must be of natural or conservative color. Hair must be clean, well groomed, above the collar, and kept away from the face to comply with infection control standards. Hair barrettes should be conservative and of color compatible to dress or natural hair color. Ribbons, headbands, and scarves are not acceptable, unless documented for religious/culture reasons. Students must be clean-shaven; this includes mustaches, sideburns, goatees, and beards.

— **Jewelry.** Minimum jewelry may be worn. This provides safe, comfortable, and sanitary conditions for the patient and the care provider. The student may wear:
  • Wrist watch with a second hand
  • Pierced earrings: one pair of small studs on the earlobes only; no stones, no hoops and no dangling earrings allowed
  • Rings: one plain band only – no stones
  • No tongue rings or other visible body piercing allowed
  • No necklaces or bracelets allowed

— **Tattoos.** Should be covered at all times.

— **Communication.** Gum chewing not only looks unprofessional, but interferes with clear communication and can be extremely offensive to others. Gum chewing will NOT be allowed while in uniform or scrub attire on clinical/school premises.

— **Fingernails.** Nails may be freshly polished, if desired, with clear nail polish, and length should not exceed the fingertips. No artificial nails of any kind are allowed.

— **Hygiene:** Good oral and personal hygiene are essential. Remember cigarette smoke and perfumes or colognes may be offensive to others and/or patients.

— **Cosmetics:** Make-up should be applied minimally and discretely.

Non-compliance with the Professional Appearance Standards will result in the student being sent home from class or clinical and given a grade of zero for the class or clinical day and will be considered as an unexcused absence.

Students **should not** wear the uniform in any other functions other than school and clinical activities.
**Student Discipline Classroom/Clinical - Appeal Process**

The student may appeal the decision of the course instructor by following the Disciplinary Action and Grievance Due Process. Violations of STC Student Code of Conduct, NAH Program Standards, and/or Safe Clinical Practice Standards will result in disciplinary action. The sanctions will be dependent on the nature and severity of the incident and potential or real threat to client safety and well-being or risk for the Program, College, and the Clinical Affiliate Agency.

For more details, please see the South Texas College Student Code of Conduct. Definition of classroom/clinical disruptive behavior a reasonable person would view as likely, substantially or repeatedly interfering with educational activities. Examples include but are not limited to:

- Constantly interrupting
- Repeatedly leaving or entering class
- Making loud noises
- Using physical or verbal threats
- Repeated use of cell phones in the classroom
- Persistent speaking without being recognized
- Non-compliance with professional appearance in class/clinical

**Academic Integrity**

Academic integrity is the pursuit of scholarly activity free from fraud and deception and is an educational objective of South Texas College and the Nursing & Allied Health Division. Failure to adhere to academic integrity constitutes academic dishonesty. Academic dishonesty includes, but is not limited to, cheating, plagiarizing, fabricating information or citations, facilitating acts of dishonesty by others, having unauthorized possession of examinations, submitting work of another person or work previously used without informing the instructor, or tampering with the academic work of other students. Individuals found guilty of academic dishonesty may receive a failing grade for the assignment and/or course as per instructor’s decision. It is the student's responsibility to have a clear understanding of the various aspects of academic dishonesty.

Plagiarism and other forms of scholastic dishonesty are serious academic violations that will not be tolerated. Scholastic dishonesty encompasses, but is not limited to, cheating, plagiarism, collusion, and any act designed to give an unfair academic advantage to the student. “Cheating” includes, but is not limited to:

- copying from another student’s work;
- using materials not authorized by a testing proctor;
- possessing materials that are not authorized by a testing proctor, such as lessons, books, or notes;
- knowingly using or soliciting, in whole or part, the contents of a non-administered test;
- collaborating with or seeking aid from another student without authorization during the test;
- substituting for another person, or permitting another person to substitute for oneself, in taking a course test or completing any course-related assignment;
- Using, buying, stealing, or transporting some or all of the contents of a test, test rubric, homework answer, or computer program.

“Plagiarism” includes, but is not limited to, the appropriation, buying, receiving as a gift, or obtaining by any means someone else’s work and then submitting that work for credit as if it were one’s own.

“Collusion” includes, but is not limited to, unauthorized collaboration with another person in the preparation of an academic assignment offered for credit.
The penalties for scholastic dishonesty in graded assignments include the possibility of failure in the course. Scholastic dishonesty in examinations will result in a grade of “F” on the examination and an “F” in the course.

**Attendance**
The NAH programs maintain established attendance guidelines and allows each program to set their own policies.

**Classroom attendance:** Please refer back to [Class Attendance and Participation](#).

**Examination Absence:** Students must take examinations at their scheduled time and date. The student must contact the instructor two (2) hours before the scheduled exam time via Blackboard. For an excused absence, make-up examination must be taken on the next class day or at a time designated by the instructor. The student must complete the exam before he/she is allowed to return to the classroom. The format of the examination may differ from the original exam, i.e. an essay exam instead of multiple choice. The same Test Blue Print will be utilized. No make-up examinations will be administered for an unexcused absence.

**Excused absence:** Excused absence from class/clinical includes but not limited to communicable illnesses, surgeries, fractures, or any other ailment that will inhibit the student from performing in the class/clinical setting. The student is to make contact with the instructor within 2 hours prior to attending class/clinical that they will be absent. Once the student is ready to return, the student must present a medical clearance without restrictions from a US licensed healthcare provider to the instructor before the next class/clinical day. Student will not be allowed to return to the class/clinical until medical clearance is submitted. Unexcused absence(s) will automatically be recorded as a zero grade for assignment/exam missed. Student is responsible for completing all coursework and exams upon return.

**Late Course work:** Students are required to submit a [Late Coursework Form](#) with any assignment that is not submitted by due date and time; forms will be placed in student’s personal file. Ten (10) points will be deducted each late day. Extenuating circumstances will be handled by faculty.

**Religious Accommodations:** Students are expected to notify their faculty in advance if they intend to miss class/clinical to observe a holy day pertaining to their religious faith. The program will provide reasonable accommodations for students to attend class/clinical due to religious reasons. Students will be required to provide verifiable documentation to the program prior to missing or upon their return to class/clinical.

**Guidelines for Written Work**
All ADN students should take pride in their work and in all their assignments.

**Written Work:** The official source book to be used at every level of the undergraduate curriculum will be the most current edition of the Publication Manual of the American Psychological Association (APA). Students are expected to follow the updated guidelines set down in this manual.

Not citing a source constitutes plagiarism. Papers are to be typed. Papers that may be handwritten as approved by the faculty, must be legible. The faculty reserves the right to return papers with an

Social Media Policy
The ADN Program supports the use of social media and upholds a student’s right to personal communication via social media sites. Faculty, staff, and students are expected to adhere to the high standards of the health care profession with regard to maintaining confidentiality.

This procedure pertains to school related functions such as interactions in both classroom and clinical activities and use of internet conversations for school related activities via the following platforms but not limited to Facebook, Instagram, Snapchat, Tweeter, LinkedIn, You Tube, etc. Sharing of sensitive and confidential information is protected under HIPAA and FERPA whether conferred through face-to-face communication channels or through social media sites.

1. Private information of patients, hospital staff, college staff, and fellow students should never be discussed in any form of social media. The Health Insurance Portability and Accountability Act (HIPAA) guidelines are to be upheld at all times both in classroom and clinical course activities.
2. The uploading, downloading and distribution of unauthorized pictures, videos and course materials are strictly prohibited without express written permission of the faculty and other persons concerned.
3. Social media interactions like but not limited to texting, e-mailing, and social networking are not permitted during class and clinical hours. All electronic devices in clinical are used only as authorized by faculty and the hospital. In addition, the use of notebooks, iPads, etc. during class will only be permitted to note taking and other school related activities as authorized by the faculty. If a student needs to respond to an emergency text/call, the student is asked to leave the classroom as deemed necessary.
4. Students must not use social media to communicate with faculty and staff. Students should use communication method as specified in the syllabus. Blackboard is the main form of communication to communicate with ADN faculty.
5. It is the student’s responsibility to keep their private social media site appropriate and profiles clean. It is highly recommended that students adjust privacy settings for personal accounts to limit public access.
6. Inappropriate use of social and electronic media by an ADN student is varied. The consequences will depend, in part, on the particular nature of the incident. Violations of patient/client privacy via electronic device will be dealt with according to disciplinary action in the ADN and STC Student Handbook.

Social Media Policy by Texas Board of Nursing (BON) Implications
Instances of inappropriate use of social and electronic media may be reported to the BON. The laws outlining the basis for disciplinary action by the Texas BON vary between jurisdictions. Depending on the laws of a jurisdiction, the BON may investigate reports of inappropriate disclosures on social media by a nurse on the grounds of:

- Unprofessional conduct;
- Unethical conduct;
- Moral turpitude;
- Mismanagement of patient records;
- Revealing a privileged communication; and
- Breach of confidentiality.
If the allegations are found to be true, the nurse may face disciplinary action by the BON, including a reprimand or sanction, assessment of a monetary fine, or temporary or permanent loss of licensure. Refer to Texas Board of Nursing Position Statement on the Use of Social Media.

**Safety Procedures**

Students injured while functioning in student roles in the clinical area, laboratory or classroom must report the incident to the course/clinical faculty. The student and course/clinical faculty should complete an Student Incident Report page 70, within 24 hours of the incident and sent to the agency designated person, the Program Chair for review and signature, and then to the Division Dean. The Division Dean will keep incident reports in a separate secured file.

**Emergency Messages**

If the division receives a call for a student that is of an emergency nature, the Program secretary or designee will locate the student to relay the message. This procedure will be used only for emergencies. Students must maintain accurate phone numbers with the Program secretary and their clinical faculty. The secretarial offices will each maintain copies of all classroom and clinical schedules for easy reference in an emergency.

**Professional Liability Insurance**

The College requires professional low risk liability insurance coverage for students in the health professions. Payment for insurance is made at the time of student registration of clinical courses.

**Emergency Health Care**

Nursing & Allied Health students are responsible for their own health and medical expenses. Health insurance for health profession students is mandatory per Affiliating Agency agreements. The College makes health and accident insurance available to all enrolling students.

**Confidentiality**

In accordance with the Texas Nursing Practice Act in Rule 217.11, Letter E, “Violating the Confidentiality of Information or Knowledge Concerning the Patient/Client, Except Where Required by Law,” the faculty of the Nursing & Allied Health Division adopted the following policy:

1. Except in the structured, teaching-learning situation, all aspects of the clients’ medically related information and/or data shall not be discussed with any other person or persons under any circumstances.
2. Proper identification as stated in the STC Dress Code is required before reading charts/records.
3. Under no circumstances are students to photo copy, take pictures, and/or tape record any part of the client’s record. The clients will not be identified by name on any written paperwork of the student.
4. Failure to honor these basic ethical client rights may result in the immediate dismissal of students from the Program.

*Students will sign a Confidentiality Statement that reflects their belief that ALL information about a client’s condition is confidential and should not be discussed in ANY public area inside or outside the agency.*
**Grading and Testing Procedures**

*Formative evaluations* of students’ performance in the nursing courses are achieved through quizzes and unit tests that will be administered throughout the semester, as scheduled by the course faculty. *Summative evaluations* are conducted through a final examination and a standardized end-of-course examination using the HESI examination, as scheduled by the course faculty.

Examinations are administered to measure and gauge students’ mastery, proficiency and competence on the subject matter, topics and concepts based on the course and Program learning outcomes. It is an essential element in determining students’ level of competence and skills gained in the course. Course Examinations include but are not limited to Unit Exams, HESI diagnostic, HESI Customized, HESI Exit Exams, Online Comprehensive Simulated Adaptive Tests, and Final Examinations and constitute a major part of the student’s grade.

**Percentage Breakdown of Grade**

Percentage of grade is for the following theory courses: RNSG 1301, RNSG1513, RNSG1417, RNSG1341, RNSG2213, RNSG1343, RNSG1412, and RNSG2331.

No exceptions. The type of exam questions will be comprehensive, calculations, and critical thinking questions. Exam questions will include standard format and alternate format questions and will follow the NCLEX-RN Detail Test Plan. Alternate format questions include:

- Multiple response (no partial credit)
- Chart/Exhibit
- Drag and Drop/Ordered Response
- Fill-in-the-blank Math and Dosage Calculations
- Hot spots
- Audio
- Graphics

Alternate format question distribution per Examination

Note: Transition cohorts (LVN-RN and EMT Paramedic-RN) will begin at Level 2 upon admission to the program.

The course faculty will provide a test blueprint in a distribution of content format before every exam. The Item Distribution Form is based on the current NCLEX Blueprint.

Excused Absence for Exam
For excused absence, make-up exam must be taken on the next class day or at a time designated by the course faculty and must be completed before the student can return to the classroom. The same test blue print may be utilized for the exam. Students will have 2 options for the special exam. The student has to submit a signed letter indicating the option he/she chooses before the test is administered.

**Option 1:** Alternate format (i.e. Fill-in-the-blanks, essay, matching type) or different exam questions (from within the coverage of the test).

**Option 2:** The same exam taken by the class with 10 points off deduction on the raw score (20 percent in a 50-item exam). For final exam, 20 points off deduction on the raw score (20% in a 100-item exam).

Student must follow the Attendance Procedure to be eligible for a make-up exam.

Review of Examinations Guidelines
1. Unit exam reviews are conducted at a time and date identified by the course instructor. Exams will not be reviewed if a student or section has not yet tested.
2. No electronic devices, including but not limited to: cell phones, all watches and electronic pens will be allowed during exam review. All cellphones and electronic devices must be on the course faculty’s desk before the start of the review. Audio, video recording, and/or transcribing is not allowed during the duration of the exam review. If audio, video recording, and/or transcribing of exam is done, the student automatically fails the course.
3. The review will not last more than 30 minutes.
4. The course faculty will read all the correct answers. After all correct answers are given; the course faculty will take questions in an orderly manner. The course faculty will give rationale for the correct answer. If the student does not understand the course faculty’s rationale for the correct answer, he/she may complete a Student Exam Item Challenge Form page 72, and meet with the course faculty by appointment to discuss the question further.

5. Questions and issues on unit exams including test item challenge must be submitted to the course faculty by 5 pm on the day of the test review. No challenge and review of the questions/test will be accepted thereafter and exam grade becomes final.

6. Challenged test items will be reviewed by the course faculty for accuracy.

7. Faculty will have 48 business hours to respond to the Student’s Item Challenge Form.

8. If the course faculty finds merit and sufficient acceptable reliable textbook evidence on the test item being challenged, the course faculty may give credit to the challenged test item for the student(s) concerned. However, students who already got the correct answer will NO longer get additional points.

9. Final Examinations will NOT be reviewed to the class. Only students who failed the course may set-up an appointment with the course faculty to review only the final exam.

Testing Guidelines
1. Students must report promptly to the assigned classroom/computer room as announced to take the test on paper or online.

2. Student will not be allowed to have electronic devices, including but not limited to; cell phones, electronic watches and electronic pens during exams; earplugs are acceptable. All cellphones and electronic devices must be turned off and placed on the course faculty’s desk before the start of the exam.

3. No articles will be allowed on the computer desk or exam table during the exam. No food or drinks will be allowed in the computer labs.

4. If student is late to a quiz, he or she will not be allowed to take the quiz. Missed quizzes cannot be made up.

5. If student is late to an exam, he or she will not be allotted extra time to complete the exam. Student can proceed with the exam with the remaining time allowed.

6. Student must leave the examination room quietly after the completion of the upload submission of the exam. All personal items including electronic devices will be left in the room until the end of the administration of the exam.

7. Students are not allowed to explore the internet during the duration of the exam or after.

8. Students are not allowed to discuss the content of the exam, during or after.

9. Coverage of exams is subject to change based on the progress of the class on lecture days, and will follow the same order of the topics based on the schedule/calendar. Should there be necessary changes in the coverage of the lectures and exams, modifications/changes will be announced on Blackboard and/or during class.

10. Exam booklets, scratch papers, and/or any exam materials must be returned to the course faculty before leaving the examination room. Taking pictures of the exam and exam materials is not allowed. If the exam booklets/materials are taken out of the classroom and/or pictures of which are taken, the student will automatically get a grade of zero (0) on the exam and will be referred to the Program Chair for appropriate action.

11. Should there be technical and computer glitches (i.e. students getting disconnected online) encountered during the computerized exams, (only the) affected students will be given extra time equivalent to the amount of time lost during the glitch. If the computer or online issue is not resolved within 30 minutes and multiple students are affected, the exam will be voided and a new exam will be scheduled and administered as soon as possible. The exam will cover the same concepts and test blueprint.
12. Computerized Adaptive Testing must be completed and submitted within the allotted time. Failure to submit the exam before the time expires results to the inability of the Program to determine Mastery Level and will show an “I” (Incomplete) grade. An “I” (Incomplete) grade will be equivalent to a zero grade.

13. Students may be required to bring personal laptop computer capable of connecting online to be used for the test.

14. Grade for unit test and current average will be given to students within a week after every unit test for courses conducted in an 8-week mini-semester. For courses conducted within a 16-week semester, exam scores/grade will be posted on Blackboard within ten (10) school days after the exam or submission of assignment, online activity, case studies, group presentations and other graded activity.

15. Final exam and course grade for Level 2 and Level 3 courses will be released on Blackboard on the last Friday of the minimester on or after 5:00 PM. For Level 1 and Level 4 courses, final exam and course grade will be released as scheduled in the STC Academic Calendar.

16. Failure to abide by the Testing Guidelines will result in but not limited to a grade of zero on the exam, immediate failure in the course or dismissal from the program.

HESI End-of-Course Exam
The Evolve (HESI) Exam is a customized (RNSG 1513, RNSG 1341, RNSG 1343, RNSG 1417, RNSG1301), or specialty/standardized (RNSG 1412, RNSG 2213, RNSG 2331) exam administered at a specified date before the final exam and must be completed by the student enrolled in the course. The end-of-course standardized/specialty HESI Exam has 55 items: 50 of which are graded and 5 are pilot questions and has to be administered over 1 hour and 30 minutes. The HESI Exit Exams administered in RNSG 2221 has 165 questions and are administered over 3 hours.

To be prepared and be successful in taking course exams and tests, students are encouraged to maximize utilization of multiple and optional resources from the library, CLE, and other reference materials to augment and strengthen knowledge base, understanding, learning of concepts, development of and harnessing critical thinking skills and test taking strategies.

Progression Criteria to Next Level
Student must successfully complete the requirements of each Level course with a minimum grade of “C” in order to progress to the next Level.

Grading and Grading System

Evaluation Method for Didactic Courses
A letter grade of “C” is the minimal requirement to progress in the nursing curriculum. The theory, skills and clinical companion course and co-requisite courses must be passed before students may progress to courses in the next level. All course requirements are graded numerically. The final course grade will be converted to a letter grade according to the Program Grade Scale. Course grades will be based on, but not limited to: unit exams, final exam, quizzes, assignments, and standardized custom or specialty end-of-course exams.

Grading Criteria for RNSG1301, RNSG1513, RNSG1417, RNSG1341, RNSG1343, RNSG2213, RNSG1412, and RNSG2331 is as follows:

| Unit/Section Exams/HESI | = 70% of the student’s final grade |
| Final Exam | = 25% of the Student’s final grade |
Grading Criteria for RNSG 2221 Professional Nursing: Leadership and Management, due to the incorporation of HESI Exit Exams, is as follows:

- **Unit/Section Exams** = 20% of the student’s final grade
- **Final Exam** = 20% of the student’s final grade
- **NCLEX Preparation/HESI Exit Exams** = 50% of the student’s final grade
- **Group Activity/Discussion Forum** = 5% of the student’s final grade
- **Quizzes/Assignments** = 5% of the Student’s final grade

**Total** = 100%

Grading Criteria for *RNSG1209 Introduction to Nursing* is as follows:

- **Unit Exams** = 30% of the student’s final grade
- **Presentation** = 20% of the Student’s final grade
- **Quizzes/Assignments** = 25% of the Student’s final grade
- **Final Exam** = 25% of the Student’s final grade

**Total** = 100%

*Grading scale for this course is the same as all other RNSG courses.*

Grading Criteria for RNSG 2363 Clinical V – Capstone preceptorship experience is graded based on the following criteria:

- **Clinical Evaluation** (based on the feedback from the preceptor) = 15%
- **Preceptorship Reflection Evaluation** (reflection journaling: 2 grading periods) = 15%
- **Clinical Simulation** (Group Grade Simulation Laboratory: 40 hours) = 25%
- **Online Examination** (8 Online Comprehensive Simulated/Adaptive Tests) = 45%

**Total** = 100%

**Grade Scale**
At the end of the course, students will earn a grade based on the following grade scale for all RNSG courses.

<table>
<thead>
<tr>
<th>Letter Grade</th>
<th>Percentage Earned</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>

</table>

**Basis for Determination of Final Grade**
Student must achieve a grade of 78.0 or better in the course. The numerical equivalent will round off (only for the Final Grade) at 0.5 or above, for example 77.5 would round to 78; 77.4 would be 77; 69.5 would round to 70; and 91.5 would become 92.

**Evaluation Method for Skills Classes**
Nursing Skills are taught in *Level 1* and in *Level 2*. Videos are utilized and demonstration by the faculty is done. Students are allowed to practice before competency testing. A Competency Performance Evaluation (CPE) form is used as the grading rubric for each specific skill that is being tested.

Grading criteria and method of evaluation for Nursing Skills RNSG1205, RNSG1144 and RNSG1140 is as follows:

- **Psychomotor/Skills Competencies** (Documentation 20% and Skill 80%) = 60%
Class Activities, Quizzes and Modules  
10%
Final Exam (Psychomotor skill competency)  
30%
TOTAL  
100%

*Grading of skills during Check Off/Competency Testing, the highest grade a student can obtain during competency testing is as follows:

- Passed the first time = 100%
- Passed the second time = 85%
- Passed the third time = 78%

The goal is to achieve at least 78% by meeting all the criteria outlined in the Competency Performance Examination Book of the specified skill. If not met in the first attempt, a conference with the student will be done by the course faculty. If the student fails to meet the required skill competency in the second attempt, a conference with the student will be done by the course faculty and the student will be referred for skills tutoring. Another Nursing Skills faculty may evaluate the student on the third (3rd) attempt on the specified skill. If the student fails on the third attempt on the specified skill he/she will automatically get a zero grade for that skill.

Skills competency for the students are documented in a Procedure Checklist, which is applicable for the entire duration of the Associate Degree Nursing (ADN) Program. It is the student’s responsibility to obtain the course faculty’s signature after every skills competency test and/or clinical performance. All skills performed per level must be signed on each line by the designated faculty before progressing to the next level. Faculty will not sign skills completed from previous levels.

In case of a lost or misplaced Procedure Checklist, a replacement list can be obtained from the faculty secretary. If for any reason, a student needs a previous faculty to re-sign the book, the student maybe asked by that course faculty to demonstrate the skill(s) again.

Evaluation Method for Clinical

A. Clinical Experience
   Clinical experiences involve holistic analysis of the health status of clients in a variety of settings. Students are allowed to function safely as a novice within the organization framework of various health care settings such as, but not limited to, emergency departments, ambulatory day surgery units, medical-surgical, and telemetry departments. Clinical experiences include but not limited to, hospital, simulation, and community outreach.

B. Method of Evaluation
   The weekly clinical performance grade is determined by dividing the sum of all points earned from individual clinical performance criteria by the total number of possible points a student could have earned during the week. If the faculty determines that a student has not had the opportunity to earn points for a given criteria, the item will be omitted. Other than the students’ clinical performance, the weekly grade reflects the written nursing care map, medication sheet, diagnostic sheet assessment form, references, and any other work assigned to the student.

Simulation Laboratory
Students attend Simulation Laboratory weekly as scheduled in the Course Calendar. Case scenarios will take the place of a patient assignment. Nursing care will be rendered to the various types of manikin. Virtual simulation scenarios may be utilized. All the policies, procedures, and requirements in clinical including but not limited to uniform, attendance, professional behavior, and grading criteria will be enforced in Simulation Laboratory.
<table>
<thead>
<tr>
<th>Level</th>
<th>Frequency of Sim</th>
<th>Grade equivalent</th>
</tr>
</thead>
<tbody>
<tr>
<td>Traditional Level 1</td>
<td>1 per semester</td>
<td>1 clinical day per semester</td>
</tr>
<tr>
<td>Traditional Level 2</td>
<td>1 per week</td>
<td>Average of all grades=1 clinical day per semester*</td>
</tr>
<tr>
<td>Transition Level 2</td>
<td>1 per semester</td>
<td>1 clinical day per semester</td>
</tr>
<tr>
<td>Traditional Level 3</td>
<td>1 per week</td>
<td>1 clinical day per week*</td>

<td>Transition Level 3</td>
<td>1 per week</td>
<td>1 clinical day per week*</td>
</tr>
<tr>
<td>All Level 4</td>
<td>1 per semester</td>
<td>1 clinical day per semester</td>
</tr>
</tbody>
</table>

*Based on the required clinical contact hours per level.

The clinical performance grade is based on clinical assignments, student self-evaluation, clinical documentation, and concept mapping. The final course grade is calculated by averaging the scores of hospital clinical, simulation, orientation and community outreach divided by the number of clinical for the entire semester.

### Nursing Skills Lab/Simulation/Computer Lab

The nursing skills laboratory is designed to enhance students’ learning. The laboratory will be used at specific times for the demonstration and practice and competency testing of skills necessary for client care. Students are expected to demonstrate correct procedure in the skills lab setting before they will be allowed to perform a skill in the health care agency. Skills may be practiced outside of the structured time by setting an appointment with the skills faculty. The prescribed dress code will be maintained in the skills laboratory.

The simulation laboratory houses high-fidelity manikins that allow the students to practice their knowledge and skills with life-like manikins in a controlled and safe environment. Due to the value that simulation plays in the promotion of critical thinking and clinical reasoning, it is incorporated in every clinical course. Dress code, attendance, and grading in the clinical courses apply to simulation.

The Nursing & Allied Health Open Labs are available for students on an extended timeframe each class day. A number of mandatory computer assisted instructional programs (CAI) are assigned each semester. Students are expected to sign in or provide a means of written documentation after completion of assigned CAI Programs. The college provides the students with Computer Open Labs, over five (5) STC campuses, and are able to log on anywhere there is internet access.

### Communicable Diseases

A safe environment must be maintained for all students and clients. Students with a communicable disease must report the condition to their faculty (classroom or clinical) immediately. The Nursing/Allied Health Programs will:

1. Make information on the prevention of communicable diseases available to students.
2. Provide all reasonable precautions to protect confidentiality.
   a. However, communicable diseases will be reported as applicable to appropriate authorities, i.e. tuberculosis.
3. Students must be able to meet acceptable performance standards and course objectives.
4. Students with a communicable disease may attend classes or perform duties at the clinical site if his or her presence does not pose a threat or danger to that individual, others in the College, or to the clients they will be in contact with during the clinical experience.
5. Students are expected to follow the affiliating agency’s guidelines governing caring for clients with communicable diseases.
Student Committees

Students will elect a representative and an alternate at the beginning of each semester to serve in the Curriculum Committee and Student Affairs Committee. Student representatives who are elected by the different cohorts attend as non-voting members of the Curriculum and Student Affairs Committees. Students may request to serve in other standard and ad hoc committees as established. The responsibilities of the student representative include attendance to the scheduled meetings, presenting concerns and issues with suggested solutions from their level, and disseminating information, action, or resolution that were acted upon in the meeting.

Program Committees

Organization and Composition of the Program Committees
The Committees are organized at the start of every academic year. All faculty members choose the committee they wish to serve and participate. The committee members elect a Committee Chair. The Committees will meet once a month or when necessary. Hours spent by the members of the different committees are credited towards the faculty's college service hours.

Informatics Committee

Roles and Responsibilities
I. Educate, Train, And Provide Support To System Users
   a. Facilitates orientation and training of system users on use of information technology and management systems.
   b. Provides support in troubleshooting issues encountered by system users related to use of technology.
   c. Provides recommendations to faculty on strategies of integrating informatics into the curriculum.
II. Choose Appropriate Systems
   a. Facilitates pilot testing of information technology software or application.
   b. Provides objective evaluation of pilot tested systems or software.
   c. Provides recommendation in selection of information systems.
III. Project Management
   a. Develops implementation timelines for adoption of new systems.
   b. Develops schedule for faculty training.
   c. Coordinates with STC IS&P department to facilitate procurement and installation of information systems.
IV. Policy Writing
   a. Assists in developing policies related to information technology and management.
   b. Assists in evaluation and revision of existing policies.
   c. Reviews evidence-based practices on information technology and management.
V. Optimizing Systems
   a. Performs regular evaluation of current information technology and provides recommendations for improvement and/or enhancement.
   b. Maintains documentation of user- and system-related issues.
   c. Identifies and utilizes quality improvement strategies using the QSEN Informatics Competencies as the framework.

Admissions and Progressions Committee

Roles and Responsibilities
I. Admission
a. Reviews applications to the three tracks of the Program: Traditional, LVN-RN, and Paramedic EMT-RN.

b. Approves and accepts incoming cohort of students to the different tracks.

II. Progression
   a. Reviews letters of intent, letters of petition, and remediation portfolios of students seeking readmission to the Program.
   b. Reviews and accepts students’ application for readmission to the Program for Math incompletes, Title IX, course failures, personal, and medical leaves.

III. Policy And Procedure Writing
   a. Assists in developing policies and procedures related to admission and progression of students in the Program.

*Curriculum Committee*

The Associate Degree Nursing program maintain a Curriculum Committee to initiate and recommend necessary changes in the program’s curriculum assuring compliance with the guidelines set forth by the Texas Higher Education Coordinating Board (THECB), the Southern Association of Colleges and Schools (SACS), and the Texas Board of Nursing (BON). The committee is tasked to review and evaluate the curricula for changes and improvements needed leading to the degree, Associate Degree Nursing. Necessary changes, improvements, and recommendations will be submitted to the Associate Degree Nursing Program Faculty for confirmation and approval.

I. Membership of the Committee
   The ADN Program Curriculum Committee will be composed of:
   a. At least five (5) fulltime faculty members who has volunteered to be part of the Committee.
   b. Chair of the Curriculum Committee will be elected by the members of the committee (Faculty).
   c. One (1) elected student representative and one (1) elected alternative student representative from every Level (Level 1 to 4), LVN to RN tract and Paramedic to RN tract.

II. Term of Membership
   a. Faculty serving on the committee will serve for the entire Academic Year.
   b. Student Representative will serve for the entire semester.

III. Responsibilities
   a. Chair of the Curriculum Committee
      i. Presides Committee Meeting;
      ii. Schedules, organizes, and coordinates Committee Meetings;
      iii. Keeps records of minutes of the meetings and attendance;
      iv. Updates the Faculty and the Program Chair of the Committee meeting decisions, progress reports, and resolutions;
   b. Faculty Members of the Committee
      i. Participate in every Committee Meeting;
      ii. Deliberate and vote on committee reports, resolutions, and decisions;
      iii. Disseminate information, reports, resolutions, and decisions to the faculty of the Level he/she represents;
      iv. Elect the Chair of the Curriculum Committee
   c. Student Members of the Committee
      i. Participate in every Committee Meetings;
      ii. Gather legitimate concerns and issues from students in the Level he/she represents;
      iii. Present issues, concerns during the Committee meetings;
iv. Disseminate the results of reports, decision, and resolutions to the students of the Level he/she represents.

**Student Affairs Committee**

*Roles and Responsibilities*

I. Fosters a safe environment that promotes educational experiences focused on student development in alignment with academic learning and institutional core values of Student Success, Opportunity, Excellence, Innovation, Community, Professionalism, and Integrity.

II. Recommends, develops, and facilitates program activities geared towards increasing student engagement that promotes institutional core values as approved by nursing program leadership.

   a. Mentors, advises, and provides support to individuals or groups of nursing students for activities that promote professional development.

   b. Facilitates activities that support the mission and goals of the Nursing Programs including but not limited to pinning ceremony, program alumni, local, and national nursing student organizations.

   c. Develops or facilitates programs and activities that promote student success i.e. award scholarship grants.

**Evaluation and Testing Committee**

*Roles and Responsibilities*

Evaluation of student performance will take place in all classroom, skills-lab, simulation, and clinical settings. Formative and Summative approaches will be utilized for both theory and clinical courses. Various evaluation approaches will be employed in the classroom including, but not limited to; written examinations, practical examinations, class participation activities and reports, both oral and written. Various evaluation tools, methods and grade sheets used within the program are included in the individual course syllabi. Exam etiquette requirements must be followed per course faculty. It is the student’s responsibility to clarify course expectations with the course faculty and seek the course faculty’s assistance as needed in a direct and timely manner.

The committee is tasked to review and evaluate, monitor and analyze, deliberate, improve and approve changes to the evaluation and testing guidelines, procedures and administration of Evaluation and Testing.

Further, the Committee is tasked to:

1. Check and peer review tests and evaluation
2. Review and evaluate Item Analysis of Tests
3. Monitor changes and update on Exams
4. Monitor the implementation of a minimum of 10% change in the test items of every unit tests per semester.

I. Membership of the Committee

   The ADN Program Curriculum Committee will be composed of:

   a. At least five (5) fulltime faculty members who has volunteered to be part of the Committee.

   b. Chair of the Curriculum Committee will be elected by the members of the Committee (Faculty).

II. Term of Membership

   a. Faculty serving on the committee will serve for the entire Academic Year.
III. Responsibilities
   a. Chair of the Evaluation and Testing Committee
      i. Presides Committee Meeting;
      ii. Schedules, organizes, and coordinates Committee Meetings;
      iii. Keeps records of minutes of the meetings and attendance;
      iv. Updates the Faculty and the Program Chair of the Committee meeting decisions, progress reports, and resolutions;

   b. Faculty Members of the Committee
      i. Participate in every Committee Meeting;
      ii. Deliberate and vote on committee reports, resolutions, and decisions;
      iii. Disseminate information, reports, resolutions, and decisions to the faculty of the Level he/she represents;
      iv. Participate in the review, monitoring and deliberation on test items, test analyses, changes of testing and evaluation guidelines, improvements and adaption of guidelines and procedures.
      v. Elect the Chair of the Curriculum Committee

Math Dosage and Calculation Ad Hoc Committee
The Associate Degree Nursing Program maintains a Math Dosage and Calculation Committee to initiate and prepare Level Specific Dosage and Calculation Module, coordinate with CLE and tutors, and recommend necessary changes in the program’s dosage and calculation procedures and standards. The committee is tasked to review and evaluate Dosage and Calculation Modules and Dosage and Calculation Examinations for changes and improvements needed, deliberate, and decide on exam items being challenged by the students.

I. Membership of the Committee
   The ADN Program Math Dosage and Calculation Ad Hoc Committee will be composed of:
   a. At least five (5) volunteer fulltime faculty members representing a specific Level/Tract;
   b. Chair of the Ad Hoc Committee will be elected by the members of the ADN Math Dosage and Calculation Ad Hoc Committee;

II. Term of Membership
   a. Faculty serving on the Math Dosage and Calculation Ad Hoc Committee will serve for the duration of the academic year.

III. Responsibilities
   a. Chair of the Math Dosage and Calculation Ad Hoc Committee will;
      i. Preside Ad Hoc Committee Meetings;
      ii. Schedule, organize, and coordinate Ad Hoc Committee Meetings;
      iii. Keep records of minutes of the meetings and attendance;
      iv. Keep updated copies of the Math Dosage and Calculation Modules;
      v. Coordinate with all Level and tracks the Math Dosage and Calculation Modules including the release of modules to the faculty, students, CLE and tutors;
      vi. Update the Faculty and the Program Chair of the Ad Hoc Committee meeting decisions, progress reports and resolutions during faculty meetings or as necessary;
      vii. Notify the student in writing of the decision of the committee with regards to the test item being challenged or appealed.

   b. Faculty Members of the Committee will;
      i. Participate in every Math Dosage and Calculation Ad Hoc Committee Meeting;
      ii. Participate in the preparation and review of the Math Dosage and Calculation Modules;
iii. Peer reviews of the Dosage and Calculation Exams;
iv. Deliberate and votes on Math Dosage and Calculation Ad Hoc Committee reports and decisions including test item exam challenges;
v. Disseminate information, reports, and updates Level faculty members he/she represents;
vi. Elect the Chair of the Math Dosage and Calculation Ad Hoc Committee
CLINICAL EXPERIENCES

Students’ clinical experiences are planned to provide the opportunity to develop nursing skills and to utilize critical thinking skills in the assessment, diagnosis, planning, implementation and evaluation of client care. The following guidelines will make the experience beneficial to students and safe for clients:

1. Assignments will reflect theoretical class content and provide the opportunity for the performance of nursing skills previously learned and demonstrated in the campus skills lab.
2. Students may obtain their assignments at a time designated by the clinical faculty from an assignment sheet posted in a predetermined area of the client care unit at the agency. Level 4 Students: Assigned Team Leaders may obtain client assignments for their team members during pre-clinical hours. Assignments will be given to team members observing confidentiality and HIPPA guidelines.
3. Students should be in complete uniform during pre-clinical.
4. Students will be expected to perform procedures using principles learned within the specific agency’s procedure. Supervision will be required until nursing care and skills are performed safely and with competence.
5. Students report directly to the clinical faculty, designated supervisor, or preceptor and will seek their supervision or advice as the situation indicates.
6. Students can only administer medications under direct supervision of a clinical faculty.

Safe Clinical Practice Standard

Purpose of Professional Clinical Experiences
To provide an opportunity for the nursing student to demonstrate competence in the cognitive (knowledge & judgment), psychomotor, and affective skills necessary to practice in the profession of nursing. The clinical learning environment is one in which the student is expected to progress in level of competence.

Standard
From entry into the clinical setting, through completion, the student is expected to practice in a safe and responsible manner regarding him/herself, the patient/client and environment. The student nurse, participating as a member of the health care team and member of the profession, is responsible for providing patient centered care and contributing to the continuity of care, and maintenance of patient’s safety and welfare throughout the clinical experience.

Self: Prior to entering the clinical experience, the student will have demonstrated in the classroom and laboratory, the necessary knowledge and skill being required in the current clinical setting.

Prior to entering the clinical experience, the student will have submitted evidence of: negative TB test, current immunizations, CPR certification, negative drug test, negative criminal background check, hospital orientation, professional liability and medical health insurance. Student must have completed and submitted required Clinical Requirements documentation (COMPLIO Compliance) to the Clinical Instructor at the start of every clinical day.

The student will not enter the clinical or classroom setting when he/she has an impairment or illness that is or may be harmful or infectious to others.

While in the clinical setting, the nursing student will:
• Utilize the Professional Standards of Practice set forth by Board of Nurse Examiners for the State of Texas; Rule 217.11 Rules and Regulations Relating to Professional Nurse Education, Licensure, Peer Assistance, and Practice in performing all academic and clinical work in the associate degree nursing Program;
• Demonstrate honesty in all behaviors & communications in the classroom and clinical setting;
• Arrive at the clinical station on time, sign in on time, report off to the person responsible for the student’s supervision any time the student leaves the clinical station, sign out on time when leaving the clinical station;
• Demonstrate behavior indicative of a drug & alcohol free professional per STC Policy 4213;
• Display stable mental/emotional & physical health;
• Demonstrate responsibility for all personal actions, and rights of the client and agency, by not failing to report mistakes or problems;
• Demonstrate safety as a priority by taking appropriate steps to insure injury does not occur to the student during the course of clinical practice;
• Abstain from all forms of sexual harassment toward fellow students, faculty, clients and agency;
• Follow exactly, the Professional Appearance Standard as indicated in the student handbook and must submit the required Professional Appearance Standard Checklist at the start of each clinical day.
• Demonstrate full understanding of confidentiality by not participating anywhere in inappropriate conversations, inappropriate sharing of information, or obtaining information in any form which is/are not pertinent to the student’s current clinical assignment;
• Demonstrate correct, accurate and timely record keeping and verbal communication;
• Provide safe, therapeutic care to clients, utilizing the level of supervision, which has been outlined by the student’s immediate clinical supervisor.

Care of Clients: While in the clinical area, the student will:
• Demonstrate correct use of all therapeutic processes, ensuring physical, mental & emotional safety of the client and their property as he/she provides care.
• Demonstrate a nonjudgmental attitude toward clients with regard to race, color, national origin, religion, socioeconomic status, age, disease process or sexual preference.
• Provide care which the student has been deemed competent to perform, utilizing the level of supervision appropriate to the circumstance outlined in the clinical guidelines,
• Demonstrate a team approach to client care by communicating clinical information in a timely fashion, verbally and/or in writing.

Care of Environment: While in the clinical area, the student will:
• Demonstrate respect for the agency through proper use and care of all equipment and property.
• Demonstrate understanding of safety by using safety devices, a team approach to ensure safe patient care, and keeping all potential injury producing objects out of the client’s access.
• Demonstrate understanding of disease transmission by using standard precautions, proper hand washing, and linen care.

Failure to meet the standard
Failure by the nursing student to meet any part of the above standards, will cause action to be taken by the clinical faculty, Program chair, and Division of Nursing and Allied Health Dean. The minimal action to be taken will be a written report and reprimand. The maximum action may be immediate dismissal from
the course. The action taken will be dependent on the nature of the incident and potential or real threat to client safety and wellbeing.

Clinical Requirements
Once a prospective student is admitted into the ADN Program, they will be required to fulfill additional immunizations and clinical requirements. Please refer to the Appendix E for a full list of the clinical requirements.

Clinical Attendance
Clinical Attendance is required for the completion of clinical learning objectives. Students are required to attend clinical at the assigned time and location. Transportation is the responsibility of students. Unexcused absences, which total more than 10% of the scheduled clinical hours for any clinical or laboratory course will result in failure from the clinical course.

Tardiness of 30 minutes or more will be recorded as a clinical absence. No half-day absences are allowed. Tardiness of less than 30 minutes on three (3) separate occasions will count as one clinical day absence.

The following must occur in the event an absence from clinical is necessary:

1. Student must inform the Clinical Faculty via BlackBoard at least two hours before the scheduled start of the clinical for an anticipated absence. During capstone, assigned preceptor must be notified at least one hour before the start of shift. No call no show will result in a zero grade for the clinical day.
2. Special circumstances will be considered on an individual basis at the discretion of the clinical faculty.

Absences are reserved for extreme emergencies, personal illness or health conditions which put the students, faculty, classmates, and clients at risk. Excessive unexcused absences put the students at risk for not meeting course/Program outcomes.

Clinical Warning
Students must satisfactorily complete all required learning objectives/outcomes through clinical performance. The clinical faculty will document in writing the reasons for an unsatisfactory clinical performance on the clinical evaluation tool and a Conference Summary Form.

The course faculty has the right and responsibility to dismiss the students from the clinical area at any time that the student exhibits unsafe clinical performance. Unsafe clinical performance is defined as the inability to safely meet the needs of the patient. Examples of behaviors that demonstrate unsafe clinical performance are listed on the clinical evaluation tool for each course.

Unsafe behavior may consist of a behavior, or pattern of behaviors that include, but are not limited to:

1. Failure to carry out the course requirements, including nursing care plans/concept maps;
2. Engaging in activities judged to be unsafe for students’ level and clinical assignment based on course objectives;
3. Engaging in any activity that has the potential to place the client in physical or emotional jeopardy;
4. Violation of any critical element identified in the evaluation tool.
A Conference Form (page 69) will be issued in the event of the above mentioned activities. The course faculty has the right and responsibility to dismiss students from the clinical area at any time that client care is jeopardized. This dismissal from clinical will result in a conference with members of the course team and Program chair.

Clinical Communication

Communication will take many forms and include agency records, student self-evaluation and faculty anecdotal notes and evaluation.

1. Students will always report to the faculty and designated supervisor before leaving the unit. Students are not allowed to take a verbal order(s) from a physician or other healthcare providers.
2. Students assume responsibility for keeping the faculty and designated supervisor informed of the client’s progress/changes and follow through as needed.
3. Students will not sign as a witness, permits or any legal document related to client care.
4. Students will self-evaluate their performance every clinical day.
5. Faculty/preceptors will keep anecdotal notes as necessary, for the students’ evaluation record.
6. Students have the opportunity to read and discuss their anecdotal notes and to write comments if desired. Students will have informal opportunities to discuss their progress with their faculty. Conferences can be held at a mutually convenient time by student and the faculty. Specific information regarding each clinical and its guidelines will be provided in the course syllabus.

Health Examination

Students are required to provide documentation verifying the following prior to attending a clinical course, along with other requirements. Failure to provide this documentation will be the basis for not being able to attend clinical which may result in a course failure. Please see Clinical Compliance Specialist with specific questions or the other documentation needed for compliance.

1. Current validated immunizations from a US medical source
   a. Tetanus/Diphtheria/Pertussis (Tdap) 1 dose within the last 10 years
   b. Hepatitis B completed 3 dose series or titer proving immunity
   c. MMR (MMR) 2 doses or titer proving immunity
   d. Varicella (Chicken Pox) 2 doses for titer proving immunity
   e. Meningitis (MCV4) new students entering under the age of 22 – 1 dose accepted within the last 5 years or must have 2 completed doses
2. Tuberculosis screening
   a. negative results within 6 months of entering the program
   b. if a student test positive for a PPD, the student must provide negative chest x-ray report every two years
3. Influenza is required from August – April
   a. Must have vial lot number and vial expiration date documented on form

Healthcare Associated Infection Guidelines

The Center for Disease Control in Atlanta has developed Healthcare Associated Infection (HAI) Guidelines as recommendations to all health care workers for preventing transmission of blood borne diseases in the health care setting. Blood and certain body fluids of ALL patients are considered potentially infectious for HIV, Hepatitis B virus (HBV) and other blood borne pathogens. The guidelines are intended to prevent parenteral, mucous membrane, and non-intact skin exposure. The implementation
of these control measures does not prevent the need for continued adherence to general infection control principles and general hygiene measures. For more information view [www.cdc.gov](http://www.cdc.gov).

**Minimum Guidelines:**

1. Use standard precautions for all clients.
2. Use appropriate barrier precautions routinely when in contact with any blood or other body fluids of any client.
3. Change gloves after each contact with clients, followed by hand washing after gloves are removed.
4. Wear mask and protective eyewear during any procedure that is likely to generate drops of sprays to prevent exposure of mucous membranes of mouth, nose, and eyes.
5. Wash hands and other skin surfaces immediately and thoroughly if contaminated with blood or other body fluids.
6. Refrain from all direct client care if you have exudative lesions or weeping dermatitis until the condition resolves.
7. Use resuscitator bags and other ventilation devices to reduce the need for mouth-to-mouth resuscitation.
8. Always use gloves when giving injections, changing wound dressings, or starting IV's or heparin locks.
9. Use appropriate equipment to prevent injuries when using needles, scalpels or other sharp instruments.
10. Do not recap used needles. Discard needle unit uncapped and unbroken into sharps containers after use. Use needle-less systems wherever possible.
11. Notify your faculty immediately if you receive an injury from a contaminated needle or other sharp instruments or any potentially harmful occurrence to either you or your patient(s). It is your responsibility to adhere to the policies and procedures of the agency regarding completion of incident reports.

**Technical Performance Standards**

Technical Performance Standards are the essential functions, which every South Texas College NAH student is expected to perform and are necessary for successful participation in the ADN Program. These are necessary in order to provide healthcare services in a safe, ethical, and legal manner. Students participating in a STC NAH Program are expected to demonstrate the essential functions listed below, with or without reasonable accommodation.

<table>
<thead>
<tr>
<th>Read</th>
<th>Fine Motor</th>
<th>Tactile</th>
</tr>
</thead>
<tbody>
<tr>
<td>Arithmetic Competence</td>
<td>Motor Control</td>
<td>Ability to use computers</td>
</tr>
<tr>
<td>Critical Thinking</td>
<td>Visual</td>
<td>Ability to complete tasks/examinations within required time limits</td>
</tr>
<tr>
<td>Communication</td>
<td>Auditory</td>
<td></td>
</tr>
<tr>
<td>Behavior Social Skills</td>
<td>Smell</td>
<td></td>
</tr>
</tbody>
</table>

These are applicable in classroom, laboratories, and clinical/practicum settings. The STC NAH Program uses independent clinical education sites that may or may not be able to offer the same reasonable accommodations that are made available by college. For more information, please contact the Office of Counseling and Student Disability Services, NAH 956-872-3077 Pecan 956-872-2173.

**Preceptorship/Capstone Procedure**

Students must observe utmost professionalism, proper channel of communication and chain of command at all times while on Capstone/Preceptorship experience. Preceptorship/Capstone students must adhere to the NAH and ADN Student Handbooks guidelines and procedures for Clinical Experiences and Clinical
requirements set forth in course syllabus. This is to include but not limited to Safe Clinical Practice Standards, Clinical Attendance, Clinical Warning, Clinical Communication, Health Examination, Healthcare Associated Infection Guidelines, and Technical Performance Standards. Failure of the student to comply with these procedures will result in disciplinary action, which may include, but not limited to, conference summary up to dismissal from the program commensurate to the infraction.

1. It is the instructor’s responsibility to look for the placement of the student to complete the preceptorship experience. Student will be given the opportunity to request placement in a specific facility and unit of assignment. However, actual assignment/placement will be determined by the faculty to facilitate efficient and prompt placement in the facility, unit, and shift where there is available qualified preceptors. A student’s request of preceptor, facility, unit, and shift is not a guarantee of placement. Student’s current grade in RNSG 2331 may be utilized as the basis to determine placement in slots/positions being competed upon by students’ requests. Student requesting a change in their submitted request will not be accommodated after the request period has lapsed. The faculty will assign the student who failed to submit request on time to any available facility or unit.

2. Preceptorship clinical hours will be conducted in hospital settings and simulation labs.

3. Student will not be assigned in area/unit/facility where the student maintains current employment either as per diem, part-time or full-time status.

4. Student is not allowed to personally arrange placement with the facility or unit of assignment. Request for placement must be channeled through the faculty. The faculty will arrange placement with the facility’s assigned contact person/office.

5. Student must comply and complete all the requirements of the course and the facility before the student can start with the preceptorship experience. Failure to complete and submit the requirements before the official start of preceptorship course will result in the student not being allowed to complete the required preceptorship hours for the current semester. Student may complete the requirements set forth for the following semester and complete the preceptorship hours thereafter.

6. The student must notify the course instructor immediately in the event the primary preceptor is unavailable and a secondary preceptor is assigned. The student must submit the required completed documents (i.e. preceptor’s application form) for the secondary preceptor to the instructor before the end of the shift. The secondary preceptor is an alternate preceptor only and therefore hours cannot exceed 50% of the total preceptorship hours (160 hours).

7. The instructor will monitor student’s completion of the learning plan outlined in the daily journal.

8. The instructor will conduct unannounced site visits for purposes of, but not limited to monitor student’s performance, facility and student satisfaction, student’s compliance to facility guidelines and procedures, monitor student’s planned learning objectives, and consult with the preceptor for feedback.
9. The student is required to clock in prior to the assigned shift and must clock out at the end of the shift utilizing the Preceptor’s Hours Log. The student is also required to notify the assigned instructor of the arrival and departure time from clinical site via text message or similar messaging apps. Time sheet must reflect only actual clinical hours completed or its equivalent hours as authorized by the faculty. Inaccurate or falsified entries will be subject to disciplinary action.

10. It is the responsibility of the student to follow chain of command and promptly notify the preceptor, charge nurse, and the instructor of any events or changes affecting the preceptorship experience and/or the patient. This includes but not limited to patient safety, unprofessionalism, nursing practice standards infractions.

11. The student must exhibit respect and professionalism for the staff of the facility and the preceptor at all times.

12. The student can administer medication under the supervision of the primary nurse.

13. NCLEX review session (HURST review) hours will not count as part of the required 160 preceptorship hours.

14. No time-and-a-half credit will be given for clinical hours obtained during holidays. They will be counted as regular hours.

15. During capstone, assigned preceptor must be notified of anticipated absence or tardy at least one hour before the start of shift. No call no show will result in a zero grade for the clinical day.

16. To ensure patient and student safety, no more than four (4) consecutive 12 hour shifts will be allowed. Failure to comply will forfeit all the hours obtained in excess of the four (4) consecutive twelve (12) hour shifts and will result in disciplinary action.

17. The required 160 hours must be completed within the allotted period. The student who fails to complete the required clinical hours will obtain a failing grade in the course.
DISCIPLINARY ACTION & GRIEVANCE DUE PROCESS

Overview

The student shall become familiar with each of the following categories, stated in the Nursing & Allied Health Student Handbook to avoid any and all violations; Student Code of Conduct, Academic Integrity, NAH Professional Standards, and Safe Clinical Practice Standards. Failure to follow respective professional specific standards will result in a disciplinary action. Violations of Student Code of Conduct, NAH Program Standards, and/or Safe Clinical Practice Standards will result in disciplinary action. The sanctions will be dependent on the nature and severity of the incident and potential or real threat to client safety and well-being or risk for the Program, College, and the Clinical Affiliate Agency.

Faculty Level

- Faculty will assess and determine immediate action, if necessary, to ensure safety of students and of others.
- Faculty members may seek guidance from program chair and dean as to whether a minor infraction should be requested.
- Faculty member will submit an incident report to Judicial Affairs on matters relating to Harm to Self, Harm to Others, and/or possible Title IX issues.

Judicial Affairs Review

- Receive report
- Determine Interim Sanctions (if any)
- Open an investigation
- Schedule hearing with Student to Present findings
- Determine if student was in violation or not in violation
- Impose Sanctions, if necessary
- Optional: Student may appeal Sanctions to College Judicial Affairs
- Judicial Affairs will submit results to NAH Committee Chair

NAH Division Level Review

- NAH Committee will review Sanctions report from Judicial Affairs and determine if student is allowed to continue in the program
- NAH Committee will inform the student of his/her enrollment status in the program
- The NAH Committee will notify NAH Dean of decision
- If a student is dismissed from the program, he/she may request a VPAA level review
- Student has 5 working days to submit a request for review to VPAA.

Vice President Level Review

The Vice President of Academic Affairs review process may include:

- Review of documentation submitted by student
- Meeting with student to hear concerns/issues
- Meeting with all individuals related to the students concerns/issues
- If applicable, creation of a review committee to assist with the review process
- At the end of the review process, the Vice President will render a decision.
- Student will be notified of the final decision, within 30 working days.
- Process ends here.

Depicted below is the NAH Division Disciplinary Action & Grievance Due Process Flowchart.
Disciplinary Action & Grievance Due Process
Nursing & Allied Health Division

Violations of STC Student Code of Conduct, NAH Program Standards, and/or Safe Clinical Practice Standards will result in disciplinary action. The sanctions will be dependent on the nature and severity of the incident and potential or real threat to client safety and well-being or risk for the Program, College, and the Clinical Affiliate Agency.

**Faculty Level**
- Faculty will assess and determine immediate action, if necessary, to ensure safety of student and of others.
- Faculty members may seek guidance from chair and dean as to whether a minor infraction should be reported.
- Faculty member will submit an incident report to Judicial Affairs on matters relating to Harm to Self, Harm to Others, and/or possible Title IX issues.

**Judicial Affairs Review**
- Receive Report
- Determine Interim Sanctions (if any)
- Open an Investigation
- Schedule Hearing with Student to Present Findings
- Determine if student was in Violation or Not in Violation
- Impose Sanctions, if necessary

**NAH Division Level Review**
- **NAH Committee** will review Sanctions/report from Judicial Affairs and determine if student is allowed to continue in the program
- **NAH Committee** will inform the student of his/her enrollment status in the program
- The **NAH Committee** will notify NAH Dean of decision
- If a student is dismissed from a program, he or she may request a VPAA level review.
  - Student has 5 working days to submit a request for review to VPAA.

**Vice President Level Review**
- The **Vice President for Academic Affairs** review process may include:
  - Review of documentation submitted by the student
  - Meeting with student to hear concern/issues
  - Meeting with all individuals related to the students concern/issues
  - If applicable, creation of a review committee to assist with the review process
- At the end of the review process, Vice President will render a decision. Student will be notified of the final decision, within 30 working days.

**Process Ends Here**
READMISSION PROCEDURE

A student, who has failed or withdrawn from a course in an NAH Program, must follow re-entry/readmission criteria determined by the NAH Division. For more information on the readmission procedure, refer to the NAH Division Student Handbook. Depicted below is the NAH Readmission Procedure Flowchart.

In the event the Program’s Progressions Committee determines the student is no longer eligible for re-entry, the student may petition for readmission to the NAH Progressions Committee. The following is the ADN Program’s readmission procedure for the following:

- Student Withdrawal from any RNSG course with a failing grade
- Student Withdrawal from any RNSG course for documented medical/extenuating reasons
- Incomplete Grades from any RNSG course for documented medical/extenuating reasons

Student Withdrawal: Failing Grade

A student who withdraws from any RNSG course with a failing grade or who have failed one RNSG course within the semester (excludes RNSG 1209), must follow this procedure.

Prior to withdrawal, student must notify the course faculty for reason of withdrawal and must have the Schedule Change Form signed. Student must sit out one semester in the process of complying with the Readmission Process; however, student is encouraged to apply within one year to ensure continuity in their program of learning. Student is eligible to apply for readmission once throughout the ADN Program. Student failing one course within the semester can proceed to Phase 1.

Note: A student will automatically be denied Readmission for the following, but not limited to, failure or withdrawal related to unsafe practice, unprofessional conduct, academic dishonesty, and/or unethical behavior. Failure of two or more RNSG courses throughout the ADN Program will result in ineligibility for readmission.

Phase 1:

Student Responsibilities:
1. Student must make an appointment to meet with Program Chair through the Faculty Secretary to discuss the readmission procedure.
2. Student will sign Readmission Process Form during the meeting with Program Chair.
3. Student will undergo and prepare the remediation portfolio using the provided grading rubric. See for Portfolio Grading rubric.
4. Items to be submitted to the Admission and Progression Committee by set deadline:
   a. Student’s signed Letter of Intent to inform the AP Committee of their intent to return to the program (letter must include reason(s) of withdrawal or failure and plan of action to be successful if readmitted)
   b. Student’s Remediation Portfolio (The Portfolio grading rubric used by the AP Committee to grade remediation portfolio will be given to the student)
   c. Student’s signed Letter of Petition

Note: The student who does not comply with the AP Committee procedures is not eligible for readmission.

Program Chair Responsibilities:
1. Program Chair will meet with student, at least two weeks after the final grades are issued, to discuss and explain the readmission procedure.
a. Items to be discussed are as follows:
   i. Readmission Process Form (will be signed by the student)
   ii. Letter of Intent
   iii. Remediation Portfolio or other alternative assignment (i.e. essay)
   iv. Letter of Petition

2. Program Chair will provide a copy of the Remediation Process Form along with the deadline set by the AP Committee to the student.
   a. Students who are ineligible to apply will be given an Outcome Letter.

3. Program Chair will have the responsibility to submit Letter of Intent and Readmission Process Form to the AP Committee Chair.

Phase 2:
Admission and Progression Committee Responsibilities:
1. Committee will convene to deliberate and review the following:
   a. Student’s submitted and signed Letter of Intent
   b. Student’s submitted Remediation Portfolio (AP Committee will use set rubric)
      i. Committee will grade Remediation Portfolio using the rubric.
      ii. Remediation portfolios with grades below 80% will be returned to the student with feedback on how the portfolio can be improved. Student will be given allotted time to Improve the portfolio as recommended by the Committee and may be accommodated for readmission in the following semester depending on space availability. The decision of the committee is final.
   c. Student’s submitted and signed Letter of Petition
   d. Committee will give preference to students who completed the course
   e. Student’s academic course grade, clinical evaluation, and course/clinical disciplinary conferences/warnings/issues (current and past)
   f. Input from current and past course faculty regarding the student’s performance.
   g. Student’s professional conduct, character, and ethical behaviors demonstrated in the program regardless of the grade in the course. (See ANA Code of Ethics and NAH Unsafe Clinical Practice and Standards of Professional Nursing Practice in the ADN Student Handbook)
   h. Student’s resolution of mental, emotional, and physical issues influencing program success
   i. Resolution of outside extenuating circumstances, if applicable

Note: Student can be called in front of the AP Committee regarding their professional conduct, character, and ethical behaviors demonstrated in the program. Behaviors unbecoming the nursing profession can result in dismissal from the program.

2. Committee will arrive at a decision and may recommend additional requirements for student to follow, if applicable
   a. May require other nursing courses to be taken concurrently as the AP Committee deem necessary

3. Committee will recommend a faculty advisor per student.

4. The student will be notified of the decision through an Outcome Letter via Jagmail. The student will be given a deadline to pick-up remediation portfolio and submit the signed Contractual Agreement.

5. Committee will automatically deny a student for the following, but not limited to, failure or withdrawal related to unsafe practice, unprofessional conduct, academic dishonesty, and/or unethical behavior.
Phase 3: 

**Student Responsibilities:**

**Approved**

1. Student must pick up the Remediation Portfolio and the Contractual Agreement from the department
   a. At the time of pick up, student must submit the signed Contractual Agreement
2. Student must contact and schedule a meeting with their assigned faculty advisor within one week of reentry (failure to comply can result in administrative dismissal).
3. Student must follow current course syllabus/program procedures.
4. Student must follow any recommendations given by the AP Committee as stated on the Contractual Agreement.
5. Student must submit proof of current clinical requirements (immunizations, insurance, CPR, etc).
6. If student has been out of the program for more than 1 year, student will have to submit a 10-panel drug and alcohol screen (negative results) and approved background check by the Texas Board of Nursing. Unsatisfactory results in either will result in denial of approved readmission.

**Denied**

1. Student may petition for readmission to the NAH Progressions Committee
   a. Student must setup a meeting with the NAH Division Dean to discuss the NAH Progressions Committee procedures, no later than 10 business days upon issuance of the Outcome Letter from the ADN AP Committee.

   **Note:** Refer to the NAH Student Handbook: Program Readmission Section.
2. The process ends here.

**Faculty Advisor Responsibilities:**

1. Faculty Advisor will be responsible to meet with the student within one week of reentry to the program.
2. Faculty Advisor and student will schedule regular meeting times for the remainder of the semester to ensure student success and to monitor student’s plan of action as deemed necessary.
3. Faculty Advisor and student will adhere to the contractual agreement, set by the Admission and Progression Committee.

**Student Withdrawal: Documented Medical Reason or Extenuating Circumstance**

*A student who is currently failing but withdraws from any RNSG course for documented medical or extenuating reasons must follow this procedure.*

A student may withdrawal from RNSG courses at any time due to documented medical or extenuating reasons.

**Student Responsibilities:**

1. Student must notify the course faculty of the intent to withdraw and the reason for withdrawal. The Schedule Change Form must be signed by faculty.
2. Student must meet with the Program Chair to present documentation signed and dated by a healthcare provider who must be licensed in the USA.
3. Student must progress to Phase 1 to remediate for the current course and submit a Remediation Portfolio to continue retention of nursing content.
4. Student must present medical clearance without restrictions by a US licensed healthcare provider before student can be readmitted to the ADN Program.
5. Student must comply and submit proof of current clinical requirements (immunizations, insurance, CPR, etc.)

6. If student has been out of the program for more than 1 year, student will
   a. Petition to the ADN Program Chair for extension if extenuating circumstance(s) arise
   b. Student will undergo and prepare the remediation portfolio using the provided grading rubric. See Portfolio Grading Rubric.
   c. Submit a 10-panel drug and alcohol screen (negative results) and approved Student background check by the Texas Board of Nursing. Unsatisfactory results in either will result in denial of readmission.

Once student is medically cleared, the student may continue the following semester, if the course is offered and will follow the current course syllabus/program procedures.

**Note:** student withdrawals with a documented medical reason will not be counted against the student’s record in the program

### Incomplete Grade

*A student who receives a letter grade of “I” (Incomplete) from any RNSG course, must follow this procedure.*

The grade of "I" (Incomplete) may be given by a course faculty in certain circumstances for a course in which a student was unable to complete all of the objectives for the passing grade level attempted. The student must complete all of the objectives as dictated by the course faculty by the end of the next long (Fall or Spring) term. Failure to complete all requirements by the end of the next long (Fall or Spring) term will result in a final grade of “F” for the course. For more information regarding the “I” (Incomplete) policies, visit the South Texas College Course Catalog.

The following circumstances may constitute for an “I” (Incomplete) grade for the ADN Program:

- Pregnant or parenting students under Title IX who are passing in the current courses but have to take a medical leave as referred by the Title IX Coordinator. Please refer to the South Texas College Student Handbook for more information visit [www.southtexascollege.edu](http://www.southtexascollege.edu).
- Student who has a medical leave and/or extenuating circumstance(s) (must be passing the current course). Proper documentation must be provided to the Program Chair.

**Procedure – Pregnant and Parenting students under Title IX**

1. Student must inform the Counselor of the intent to take an “I” (Incomplete) grade due to pregnancy.
2. The Counselor will notify the faculty of the student’s Title IX status.
3. If necessary, the Counselor will meet with the faculty and the Program Chair to discuss the student’s status in class.
4. The student will communicate directly with the Counselor.
5. Course faculty must complete the ADN Issuance of grade of “I” (Incomplete) Form.
6. Course faculty will document the course grade and refer student to the ADN Program Chair.
7. Program Chair will sign the Issuance of Grade of “I” (Incomplete) Form.
8. Program Chair will forward the student file to the ADN Admission and Progression Committee to accommodate the student.
9. Proper documentation is required by the STC counselor indicating that student is allowed to return to the ADN Program.
10. The AP Committee and course faculty will determine, as deemed appropriate, the continuation of the course for the student.
11. Student will not be officially registered for the course.
12. Once student successfully completes the course, the course faculty will complete and submit a Change of Grade Form to the Office of Admission and Records for the course grade to be reflected on their STC transcript.

Procedure – Medical leave and/or extenuating circumstance(s)

1. Student must inform the course faculty of the intent to take an “I” (Incomplete) grade.
2. Student must provide the necessary documentation.
3. Course faculty must complete the ADN Issuance of grade of “I” (Incomplete) Form.
4. Course faculty will document the course grade and refer student to the ADN Program Chair.
5. Student will meet with ADN Program Chair to discuss the request for an “I” (Incomplete) grade, if applicable.
6. Program Chair will sign the Issuance of Grade of “I” (Incomplete) Form.
7. Program Chair will forward the student file to the ADN AP Committee to accommodate the student depending on space availability.
8. Student must submit medical clearance without restrictions from a US licensed healthcare provider to the ADN Program Chair.
9. The AP Committee and course faculty will determine, as deemed appropriate, the continuation of the course for the student.
10. Student will not be officially registered for the course.
11. Once student successfully completes the course, the course faculty will complete and submit a Change of Grade Form to the Office of Admission and Records for the course grade to be reflected on their STC transcript.
Nursing & Allied Health Division Readmission Procedure

A student, who has failed or withdrawn from a course in an NAH Program, must follow re-entry/readmission criteria determined by the program. In the event the Program’s Progressions Committee determines the student is no longer eligible for re-entry, the student may petition for readmission to the NAH Progressions Committee.

**LEVEL 1: Program Level Review**

- Program Chair will meet with student and discuss the Readmission Procedure
  - Written request to return to the program
  - Remediation Portfolio/Plan of Action, if applicable to program
  - Follow the established guidelines and timeline set by program

- Program Chair will forward student’s complete packet to the Program Admission & Progression Committee for review.

- The Program Admission & Progression Committee will convene, review documentation submitted, and make decision if student is eligible for readmission to the program. Student will receive a Notification letter of the Program Admission & Progression Committee’s decision.

**Level 2: NAH Division Level Review**

- Disapproved
  - Student Responsibilities (if disapproved)
    - Student has 2 working days to request a meeting with the NAH Division Dean from date of Program Notification Letter
    - Submit a written request to appeal the Program Level decision within 3 working days
    - Meet with NAH Division Dean within 3 working days to discuss the NAH Progression Committee’s Readmission procedure.

- Approved
  - The NAH Progression Committee will have 10 working days to review and submit the recommendation to the NAH Division Dean.
  - The NAH Division Dean will have 1 to 3 working days to send a Notification Letter of the decision of the NAH Progression Committee decision.

**Level 3: Vice President Level Review**

- Disapproved
  - Student Responsibilities (if disapproved)
    - Student has 2 working days to submit a request for review with the Vice President from the date of NAH Progression Committee Notification Letter.

- Approved
  - The Vice President for Academic Affairs review process may include:
    - Review of documentation submitted by the student
    - Meeting with the student to hear concerns/Issues
    - Meeting with all individuals related to the students concern/Issues
    - If applicable, creation of a review committee to assist with the review process

- At the end of the review process, Vice President will render decision. Student will be notified of the final decision, within 30 working days.

**Disapproved**

- Student Responsibilities (if disapproved)
  - Student must follow the STC Grievance policy set forth on the STC Student Handbook.

**Approved**

- Student Responsibilities (if approved)
  - Meet with Program Chair to sign Contractual Agreement
  - Meet with their assigned Faculty Advisor and/or Student Success Specialist
  - Must be compliant with all clinical requirements

Registering for HESI Admission Assessment Exam

HESI A2 EXAM
The HESI A2 Exam is an admission requirement for the ADN Program. The exam consists of academic exams and a personality profile that identifies the applicant’s learning style. All students are required to take the exam, no exceptions. Total time allotted to complete the exam is 4.25 hours.

Traditional Track students are required to have HESI passing scores prior to registering for RNSG1209 Introduction to Nursing, within the last two years. LVNs and EMT Paramedics are required to have HESI passing scores as part of the program application requirements, within the last two years.

Frequently Asked Questions
1. How do I register for HESI A2 Exam?
   - You must have an Evolve student account with HESI Assessment. To register for your HESI Distance Testing exam you will need an Evolve account. If you do not have account, you can create it at the Evolve Website.
   - Register for Distance Testing Exam
   - Log into your Evolve Account and click on “HESI Assessment Student Access”

   Note: if you wish to take the Exam with South Texas College, follow these steps
   - Log on to http://studentservices.southtexascollege.edu/testing/
   - Choose exam “HESI”
   - Read the instructions regarding HESI
   - Go to the HESI Store and follow the prompts to register for the exam

   Note: if you wish to take the Exam with Prometric, follow these steps
   - Click on Distance Testing Tab > Register for a Distance Exam
   - Complete the required information, check box, and click the submit button
   - Please confirm that you first and last name match your government-issued photo ID with signature
   - Click Tab on your keyboard to populate information
   - Enter school’s department ID 199281
   - Select the appropriate Exam

SOUTH TEXAS COLLEGE-ADN DISTANCE Department ID: 199821

*IMPORTANT INFORMATION:
- Do not use the school’s department ID as your student ID when creating your student Evolve account.
- The first and last name on your Evolve account must be the same as it appears on your government issued photo ID with signature (i.e. Driver’s License or Passport). You will not be admitted into the testing lab if there is any discrepancy between what is listed on your Evolve student account and what is presented on your ID.
- Your government issued ID must include your signature and a photo that resembles your current appearance to gain admittance into the testing center (your middle name/initial is not required).

You will receive an email Confirmation Notice indicating that you may schedule your exam. Please carefully review the information contained in your Confirmation Notice. If name is not correct, or has been changed, please contact Elsevier HESI Assessment at exameligibility@elsevier.com. Failure to do so could result in forfeiture of your testing appointment and associated fees.

PLEASE NOTE:
You will receive your Eligibility ID within 1-3 business days from our receipt of your eligibility request. Please add the following email address to your email’s safe sender list to avoid delays: exameligibility@elsevier.com. If you do not see the notification, please check your spam/junk folder.
**How much does the HESI A2 Exam cost?**
The price for the exam with South Texas College is $70. The price for the exam is approximately $107 with Prometric. When registering for the exam, be prepared with a Debit/Credit Card. The fee is the same if you re-test on a section or all sections.

**Where can I take HESI?** You can take HESI with *South Texas College* or *Prometric*. To take the HESI with South Texas College, visit the [Student Assessment Center](#) and follow the prompts or refer to question 1. To take the HESI with Prometric follow the steps on the Evolve website.

**What is tested?**

*Includes 50 scoring and 5 pilot items*
How should I prepare?
A study booklet is available and can be purchased at stores listed below. If it is the first time taking HESI, it is recommended you take BIOL2401 and BIOL2402 before taking the HESI exam. HESI has a component of Anatomy & Physiology.

HESI Admission Assessment Exam Review, latest edition. With content review and sample test questions, this study guide helps students prepare for the Exam.

May be purchased at:
- Evolve Website
- Any major bookstore or website
- You may also view the book at most South Texas College Career Learning Centers (CLE)
- Other resources you can use to prepare for the exam are Quizlet.com, Kahnsacademy.org, YouTube, and HESI A2 apps.

What scores do I have to attain on the HESI A2 Exam?
Each section must be passed with a 75% or higher. Below is an example of the HESI Exam formula for the ADN Program application.

Example

<table>
<thead>
<tr>
<th>Section</th>
<th>Score</th>
</tr>
</thead>
<tbody>
<tr>
<td>English Language Composite Score (all 7 exams)</td>
<td>75%</td>
</tr>
<tr>
<td>Science Composite Score: Anatomy &amp; Physiology only</td>
<td>80%</td>
</tr>
<tr>
<td>Math Score</td>
<td>88%</td>
</tr>
</tbody>
</table>

Add and divide by 3 to determine average score and points on the application

HESI Points awarded based on average
100% - 90% = 3 points
89% - 83% = 2 points
82% - 75% = 1 point

When will I receive my exam scores?
Exam scores are available immediately after completion of the exam. If you are unsure if you passed your HESI Exam, please visit the ADN Advisor for clarification. Your scores are also available on your HESI account.

Do I have to take HESI A2 before I register for the Intro to Nursing course?
Yes, HESI is the prerequisite for Intro to Nursing course. You must pass all sections before registering for this course.

Do I have to take HESI A2 if I have a Doctoral degree, Masters degree, Bachelors degree, Associates degree, or Certificate?
Yes, all students are required to take the exam, no exceptions.

What if I don’t pass the HESI A2 Exam the first time?
You may retake the HESI Version 2 Exam after 2-3 weeks waiting period. You will retest with a different version (version 2) of the exam—no student will have the same exam items twice.

If you fail the exam on the second attempt, you must wait until the next eligibility period to test. You can test for HESI A2 Exam six times per year, which is two times per eligibility period.

You can repeat the exam if you scored under 75% on a required test section and repeat that section within the same “eligibility period” as the first exam. If student decides or wishes to improve scores (on either version 1 or version 2), the highest score of 75% or better will be taken into consideration within the same eligibility period.

Eligibility periods are: January 1 through May 31
June 1 through August 31
September 1 through December 31

When can I register for Introduction to Nursing?
Introduction to Nursing is for Traditional Track students. Please bring your scores to the NAH Campus and see ADN Advisor for written approval to register in person for the course.

Do I have to pay for the entire exam if I retest?
Yes, the exam is the same fee whether you test for the entire exam or retest on a section(s). Please make sure you retest within the eligibility period of the first exam.

How long are my A2 Exam scores valid?
HESI scores are valid for 2 years from the time of completion.

I am having technical difficulty with the website or registering for the exam, who do I contact?
For technical assistance, re-activating your account, rescheduling or changes on HESI registration, contact Elsevier Client Services at 1-800-222-9570 or contact Elsevier Review & Testing via email at exameligibility@elsevier.com for further assistance.
Clinical Requirements
Associate Degree Nursing Program Clinical Requirements

Students must submit current immunizations when submitting the program application.

- Tetanus/Diphtheria/Pertussis (Tdap) - within last 10 years
- Hepatitis B – 3 dose series or serology/titer report proving immunity
- MMR (Measles Mumps Rubella) – 2 doses required or serology/titer report proving immunity
- Varicella (Chicken Pox) – 2 doses required or serology/titer report proving immunity
- Meningitis MCV4 entering students under the age of 22 – 1 dose is accepted if within the last 5 years or must have 2 completed doses

There will be additional immunizations and other clinical requirements required once you are admitted into the ADN Program. The list below will assist to better prepare and demonstrate the required information.

- **Alcohol and 10-Panel Drug Screen** (urinalysis) results must be negative
- Influenza (required from August – April) MUST have vial lot number and vial expiration date documented
- Tuberculosis screen – must be negative; expires annually; students with positive TB screen must provide negative chest x-ray report every 2 years; must be taken within the last 6 months
- Current CPR (Cardiopulmonary Resuscitation) American Heart Association Healthcare Providers certification for adult & child; must be renewed every 2 years; ONLINE CPR course not accepted. Student must provide a copy of the card (front and back) make sure your card is signed
- Proof of Current Health Insurance (ex. BCBS, Humana, Medicaid, Medicare, VA, UHC, CHIPS, TriCare, etc.) or Student Accidental Insurance - STC Student Insurance or other
- Current Driver’s license, State ID, Passport, or US Military ID with visible signature
- Social Security Card for verification purposes (required by some clinical affiliates and state licensing boards) must be signed
- Complete Technical Performance Standards Form - signed statement of ability to perform technical standards for nursing or allied health program of study.
- Complete form Background Check Authorization and Release Form
- Complete form Disclosure Statement
- Complete form Manual of Policy 3337 (NAH Policy)
- Complete “Student Clinical/Practicum Hospital Orientation” instructions will be given at orientation

South Texas College  
Nursing & Allied Health Division  
Grievance Report Form

Any violations of the South Texas College Student Code of Conduct, NAH Program Standards, and/or Safe Practice Standards will result in disciplinary action. The sanctions taken will be dependent on the nature and severity of the incident and potential or real threat to client safety and well-being or risk for the Program, College, and the clinical affiliate agency.

Student Information:

Student Name: ____________________________________________________________ ID#: ____________________________________________________________
Jagnet E-mail Account: ______________________________________________________@stu.southtexascollege.edu

Program: ____________________________________________ Date: __________________________

Area of Concern: ☐ STC Student Code of Conduct ☐ Academic Integrity
☐ NAH Professional Behaviors ☐ Unsafe Practice ☐ Other

Quote Specific STC Code of Conduct/NAH/Program Standard(s) that was/were violated:

Once the form is complete, a copy of this form will be given to student.
Technical Performance Standards

Technical Performance Standards are the essential functions, which every STC NAH student is expected to perform for successful participation in the Program. These are necessary in order to provide healthcare services in a safe, ethical, and legal manner. Students participating in a STC NAH Program are expected to demonstrate the essential functions listed below, with or without reasonable accommodation. These are applicable in classroom, laboratories, and clinical/practicum settings. The STC NAH Program uses independent clinical education sites that may or may not be able to offer the same reasonable accommodations that are made available by the College. Any student wishing to request reasonable accommodations due to a documented disability must initiate the process by contacting an ADA representative from the STC Office of Counseling and Student Disability Services for information and procedures at NAH (956) 872-3077 Pecan (956) 872-2173.

Please initial each item.

1. **READ:** I am able to read and understand printed materials used in the classroom and health care settings such as textbooks, signs, medical supply packages, policy and procedure manuals, and patient records.

2. **ARITHMETIC COMPETENCE:** I am able to read and understand columns of numbers and measurement marks, count rates, tell time, use measuring tools, write numbers in records, and calculate (add, subtract, multiply, divide) mathematical information such as fluid volumes, weights and measurements, and vital signs.

3. **CRITICAL THINKING:** I possess sufficient ability to:
   - comprehend and process information in a timely manner
   - acquire and apply information from classroom instruction, skills laboratory experiences, independent learning, and group projects
   - prioritize multiple tasks, process information, and make decisions
   - collect, interpret, and assess data about patients
   - observe, measure, and interpret normal and abnormal patient responses to interventions, and appropriately modify treatment interventions
   - act safely and ethically in the lab and clinical/practicum setting

4. **COMMUNICATION:** I am able to:
   - communicate effectively, in English, in oral and written form with peers, instructors, patients, and other health care professionals
   - complete assignments and tests in both written and oral formats
   - give directions, explain procedures, give oral reports, speak on the telephone, and interact with others
   - document care using appropriate terminology, accuracy, efficiency, and in a legible manner
   - comprehend, interpret, and follow oral and written instructions
   - recognize, interpret, and respond to nonverbal behavior of self and others
   - interpret and communicate information regarding the status, safety, and care of patients

5. **BEHAVIORAL SOCIAL SKILLS:** I am able to:
   - develop therapeutic relationships with patients and others
   - work in stressful situations with multiple patients and colleagues at the same time
- interact appropriately with individuals of all ages, genders, races, socio-economic, religious, and cultural backgrounds
- establish rapport and work effectively with peers, patients/clients, and instructors (ask advice, seek information, and share)
- negotiate interpersonal conflicts
- cope with the fast pace of class/lab/clinic, heavy workloads, classroom and/or patient demands, changes in schedule, motivate a sometimes discouraged patient, and demonstrate patience and empathy with patients
- focus attention on task, monitor own emotions, perform multiple responsibilities concurrently, deal with the unexpected, handle strong emotions (i.e. grief, revulsion), manage impulses
- tolerate close physical contact with co-workers and sick or injured patients who may have multiple problems and diagnoses
- cope with patients who may be terminally ill
- exercise appropriate work ethics, including the maintenance of confidentiality
- recognize and respond appropriately to potentially dangerous situations
- maintain the emotional health and stability required to fully utilize intellectual capabilities, demonstrate good judgment, and render patient care

6. **FINE MOTOR**: I possess manual dexterity necessary to palpate muscles and/or bony prominences, pick up objects with hands, grasp small objects, write with pen or pencil, and squeeze fingers.

7. **MOTOR CONTROL**: I am in good physical condition and have a moderate amount of strength in order to:
   - safely adjust, move, position, and lift patients and equipment
   - safely assist and protect patients who are walking with and without assistive devices, exercising, or performing other activities
   - provide for the patient’s safety in all patient care activities
   - reach arms above head and below waist, stoop/twist, stretch, bend, kneel, squat, push, pull, walk, sit, or crawl as the need arises; move quickly (respond to emergency) while maintaining safe posture/body mechanics
   - perform bimanual activities easily
   - obtain and maintain CPR certification (American Heart Association CPR for Healthcare Providers)
   - use proper body mechanics for all skills related to patient care, and apply standard precautions when rendering patient care treatment
   - possess the endurance necessary to perform 40 hour work weeks during clinical education courses
   - stand and maintain balance during classroom or therapeutic procedures/activities for long periods of time, and maintain a high energy level throughout the day

8. **VISUAL**: I am able to:
   - read small numbers/scales and fine print on goniometers, other measuring devices and computer screens accurately to ensure safe treatment
   - recognize and interpret facial expressions and body language
   - recognize differences and changes in skin and soft tissue
   - recognize a patient’s physiological status
   - assess a patient’s environment
   - recognize depths and use peripheral vision

9. **AUDITORY**: I am able to:
• recognize and respond to normal speaking level sounds/verbal communication, auditory equipment timers, and alarms in an environment with a moderate level of background noise
• effectively use equipment to assess blood pressure, pulse rate, and breath sounds

10.***SMELL***: I am able to detect odors from client, such as smoke, gases or noxious smells.

11.***TACTILE***: I am able to:
• feel vibrations (palpate pulses)
• detect and assess changes or abnormalities in skin texture, skin temperature, muscle tone, and joint movement
• detect environmental temperature (drafts, cold and hot)
• adjust physical therapy equipment

12. I have the ability to use computers and complete computer-based assignments.

13. I have the ability to complete tasks/ examinations within required time limits in the classroom, laboratory and in the clinical areas.

Statement of Commitment

Semester __________________________  RNSG ________ : ______________________

I, _____________________________ (printed name) A#_______________, pledge my commitment and professional decorum
as a student of the Associate Degree Nursing Program. I will abide by the STC policies, guidelines, procedures of the ADN
Program, acknowledge my responsibilities, and I will be accountable for my actions.

Criteria – Action Plan for Success
____ I will design an Action Plan for Success before the start of every RNSG course and discuss it with the
faculty and Academic Coach. My action plan for success will include, but not limited to concept retrieval,
time management calendar, study and test-taking strategies.

____ I will evaluate my action plan after every unit exam with my faculty and the Student Advisor to ensure its
completion.

____ I understand that if I do not achieve 100% completion of my action plan, I may not be successful in this
course.

Criteria – Chain of Command
____ I promise to follow the chain of command for any issues I may have while in the program. I will address
any issues and concerns with my faculty, proceed to the Assistant Program Chair, Program Chair, and the
Dean of Nursing Allied Health, in that order until my issues are resolved.

Criteria – Learning Style Inventory (LSI)
____ I will assess my Learning Style with a CLE Tutor and utilize the findings in designing my study strategies.

Criteria – Outside Employment
____ I acknowledge that the performance of students when working for compensation is the legal responsibility
of my employer and me. I will not wear my school uniform or name badge during my employment outside
of school.

Criteria – STC Student Code of Conduct
____ I understand that the ADN program is rigorous and employment while in nursing school may jeopardize
my success in the program.

____ I will follow the STC Student Code of Conduct at all times. Failure on my part to abide by the rules of the
Student Conduct may lead to my probationary status or dismissal from the program.

____ I am obligated to function at all times within the framework of the Code for Nurses of the American Nurses
Association.

South Texas College – Associate Degree Nursing Program
Professional Appearance Standard Checklist

Uniform Code – Guidelines for Professional Appearance – Clinical and Classroom

— I am in standard scrub uniform top and pants in designated color (ceil blue).
— I am wearing white lab coat over ceil blue scrubs for clinical prep and clinical.
— I am wearing the standard all white nursing/tennis shoes (non-canvas) with closed toe and heels and no colored stripes or logo.
— I am wearing appropriate undergarments.
— I am wearing my student name badge(s) on left side of chest at all times.
— I am wearing my school patch on left sleeve of uniform and/or left side chest of lab coat.
— I am wearing white socks and/or white hose that cover the ankle entirely; no no-show socks allowed
— I am not wearing tight uniforms, bearing low cut scrubs, open-toe or high-heeled shoes.

Hair. Hair must be of natural or conservative color. Hair must be clean, well groomed, above the collar, and kept away from the face to comply with infection control standards. Hair barrettes should be conservative and of color compatible to dress or natural hair color. Ribbons, headbands, and scarves are not acceptable, unless documented for religious/culture reasons. Students must be clean-shaven; this includes mustaches, sideburns, goatees, and beards.

— Jewelry. Minimum jewelry may be worn. This provides safe, comfortable, and sanitary conditions for the patient and the care provider. The student may wear:
  • Wrist watch with a second hand
  • Pierced earrings: one pair of small studs on the earlobes only; no stones, no hoops and no dangling earrings allowed
  • Rings: one plain band only – no stones
  • No tongue rings or other visible body piercing allowed
  • No necklaces or bracelets allowed

— Tattoos. Should be covered at all times.

— Communication. Gum chewing not only looks unprofessional, but also interferes with clear communication and can be extremely offensive to others. Gum chewing will not be allowed while in uniform or scrub attire on clinical/school premises.

— Fingernails. Nails may be freshly polished, if desired, with clear nail polish, and length should not exceed the fingertips. No artificial nails of any kind are allowed.

— Hygiene: Good oral and personal hygiene are essential. Remember cigarette smoke and perfumes or colognes may be offensive to others and/or patients.

— Cosmetics: Make-up should be applied minimally and discretely.

By signing, I attest that I am complaint with the Professional Appearance Standards. I understand that if I do not comply or my instructor determines I am in violation of the Professional Appearance Standards, I will be dismissed from the clinical site, will be marked absent, and will earn a grade of zero for the day.

South Texas College – Associate Degree Nursing
Graduation Clearance for Affidavit of Graduation (AOG)

Complete the form and attach with the required documents in order for your Affidavit of Graduation to be processed.

Student name: _______________________________  Student STC ID __________________

Address: ________________________________  Phone #: __________________

DOB: ________________________________  SSN last 4: XXX – XX – _________

Graduation Date: _______________________________  Class of __________________________

Email address: ________________________________

- Submit the required documents and this form to Claudia Camacho, office 120 at the NAHA Campus
- Refer to NCLEX-RN Eligibility Information-Examination Application
- The Program Director will process Affidavit of Graduation (AOG) to Texas BON 1 to 2 times per week.
- An email from the TX BON will be sent for further instructions on scheduling your NCLEX-RN Examination after 20 business days from the date the AOG is submitted. Check the status on the TBON website.
- The ADN department will notify you if there are any issues with the submission of your AOG.
- Make sure the information you submitted to the TBON is correct, such as but not limited to, your name, school code, graduation date, etc.
- There should not be any HOLDS on your account from, but not limited to Cashiers, Loans Dept., Pass Program, Registrar’s Office, Counseling, etc.

Submit the following with this form.

- Texas Board of Nursing NCLEX-RN Payment paid receipt/fee $100
- CERTIFICATE of successful completion of Nursing Jurisprudence Examination
- Printed copy of Degree Works from JAGNET at 100% completion
  - All holds on your account should to cleared prior to submitting this form

I, ___________________________________________ (print your name and ID), received, accessed online and reviewed the following syllabus/syllabi and handbooks with my instructor on _____________________ for course RNSG ___________.

I am aware:

1. of the policies, guidelines and requirements of the STC Student Handbook, the ADN Handbook, NAH Student Handbook and the course syllabus/syllabi (STC website and www.southtexascollege.edu/nah).
2. of the Professional Appearance Standards stated the ADN handbook and course syllabus, as well as in the clinical arena. This includes wearing the South Texas College ID at all times while on campus or in the clinical setting.
3. of the statements regarding Texas Board of Nursing regulations for license eligibility policies (Nurse Practice Act, Article 4519a and 4525 policy, found on-line at: (www.bon.state.tx.us).
4. of the NAH parking regulations and smoking policies.
5. of the Safety and Emergency Plan (online access and discussed in class).
6. that I am on my honor not to cheat on course assignments, quizzes, tests, etc. I am aware that I am obligated to report any knowledge of others cheating to my instructor. Cheating and failure to report cheating will result in a “zero” on the assignment, tests or quiz, and may result in an “F” for the course.
7. that all information about clients and/or their families is confidential, and I CANNOT discuss my client and/or families in any public areas inside or outside of the educational arena. I will abide by HIPAA Standards.
8. that all personal electronic devices are NOT allowed in clinical agencies or their grounds.
9. that due to copyright laws, I cannot copy texts that are required in this course.
10. of the Progression of the ADNP (course syllabus and handbook).
11. of grading scale:  A = 92 - 100, B = 85 - 91, C = 78 - 84, D = 70 - 77, F = 69 and below. The numerical equivalent only for final grade will round off at 0.5 or above.
12. that there are no children are allowed in the classroom/simulation during class session.
13. that if a medical condition should arise during the course, that may affect my or my client’s healthcare, I must:
   a. notify my instructor prior to attending class/clinical
   b. provide my instructor with a medical clearance without restrictions by a US licensed healthcare provider to the instructor before the next class/clinical day. I will not be allowed to return to the class/clinical until medical clearance is submitted. All missed class/clinical days after being medically cleared by a US licensed healthcare provider to return, will be considered as an unexcused absence. I will receive a “zero” for every class/clinical day until the medical clearance is presented to my instructor. Medical conditions include but are not restricted to such conditions as back injuries, sprains, fractures, surgeries, communicable diseases, etc. I will be responsible for completing all coursework and exams upon my return.
14. that before I can go to clinical, the following information must be current and remain current throughout the course:
   • Cardio-Pulmonary Resuscitation-Health Care Provider-Basic Life Support (CPR-HCP-BLS) certification by the American Heart Association
   • Liability insurance (included in tuition)
   • PPD (repeated every year) or chest X-ray every two (2) years
   • Up-to-date immunizations of Hepatitis B, Tetanus/Diphtheria/Pertussis (Tdap), Measles/Mumps/Rubella (MMR), Varicella and if applicable, Meningitis
   • Proof of Negative results of a 10-panel Drug Screening
   • Clearance from the Texas Board of Nursing Criminal Background
   • Evidence of medical health or Accidental insurance each semester
   • On-Line Hospital Orientation or other hospital orientation/clearances by hospitals
